Silly but II Not Lazy

' can't be
Worse

Anyway !..

Here we go again ...

Helloooooooo

Sweet steaming beauty ...

Let's start again ...

*When a combustible thing
Obviously provokes you*

*You must ...
You must ...*

*How stupid
This is*

*' can't
Remember
Actually ...*

I said : NO !

*Pleaaaaaaase
Muuuuuuuum*

*No methanol
for the*

*On beam
Speed
Race !*

It's against the rules !

So lucky we could see
Where dad keeps his stock

Dangerous ...

Methanol ...

What ...

A ...

Joke !..

(Censored picture)

*What do you think it is ?
Whisky or vodka ?..*

Who cares !

All we ask is it to burn ...

Honestly !

Try something else !

This really does not look like

A reptile

Believe me :

*Humans are used
To buy very expensive things
They call : Art*

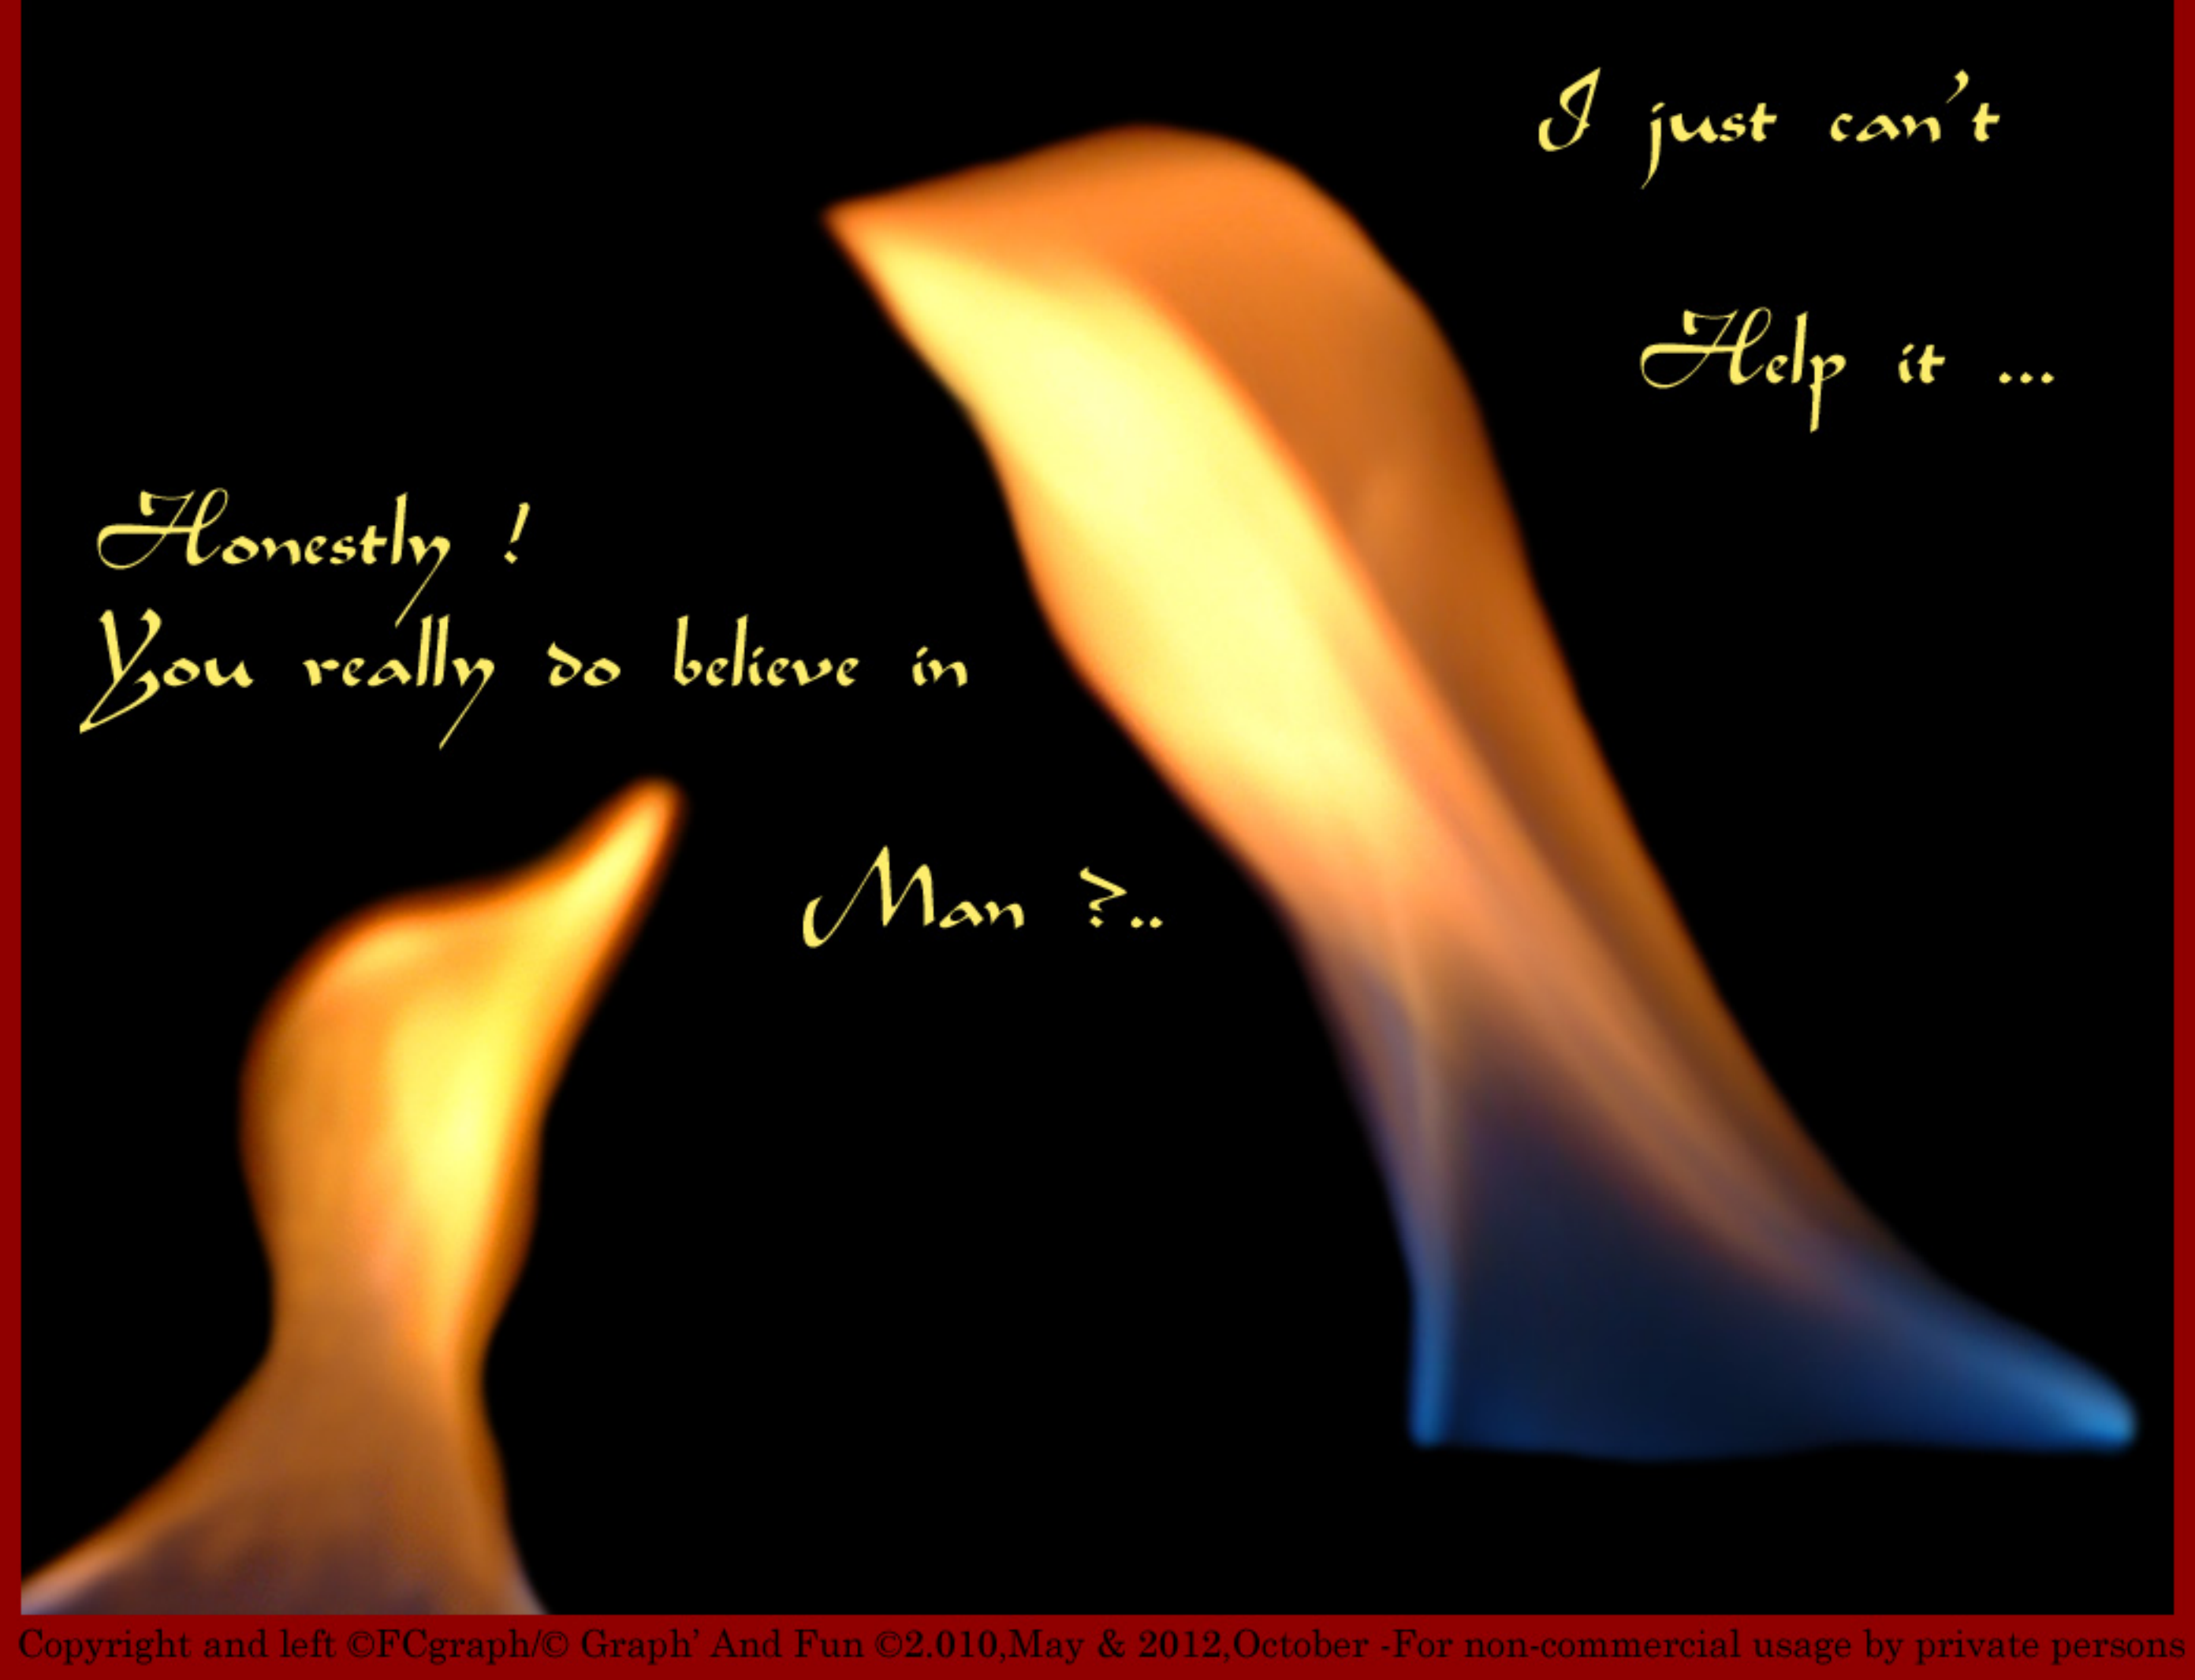

*And that may have
Even less much interest
Than this ...*

Double sledding

*Even so
It's really
Pathetic*

I just can't

Help it ...

*Honestly !
You really do believe in*

Man ?..

Do you remember ?

*We used to look at them
Each one of us , and we just
Imagined that each one of them
Was a child we're gonna have ...*

Someday ...

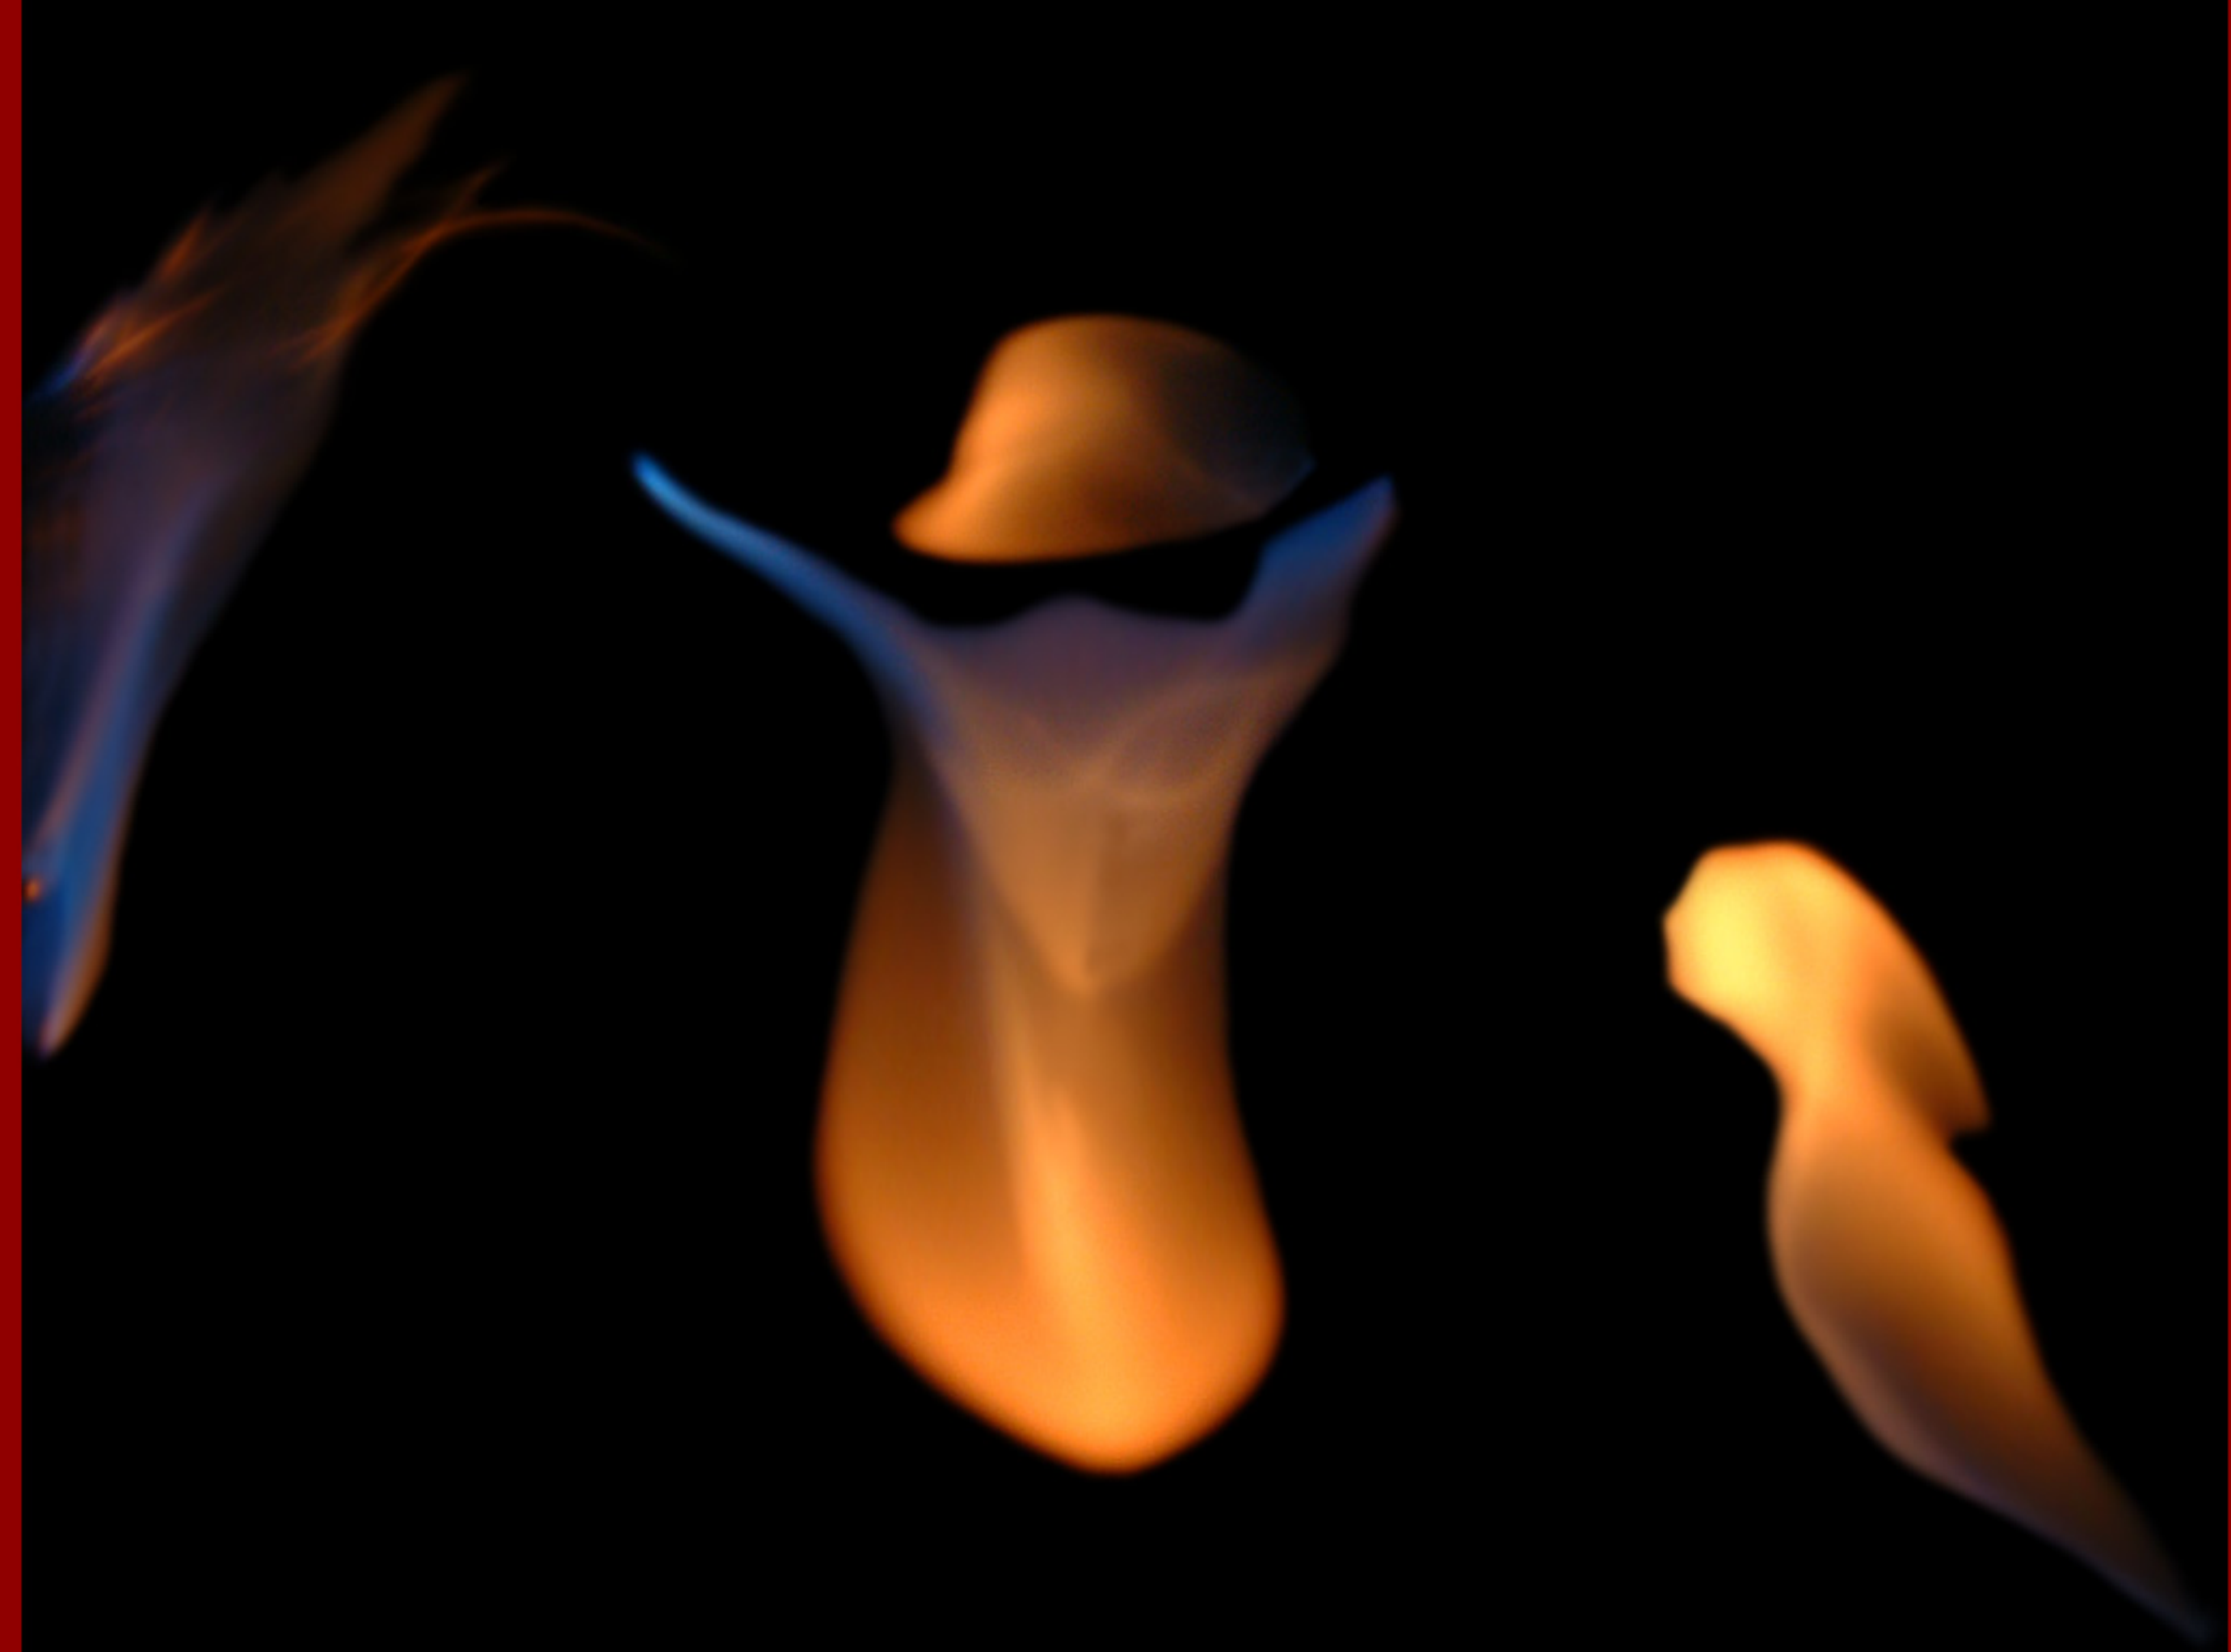

I've got you !

Ha !

*Tax
Office
Can't*

Be caught ...

So ...

Is it melting or is it solid ?

Come on !

We're in a hurry

Well !

' seems not to be melting
But ' doesn't seem to be solid
Neither

Now ...

' can't tell !..

How horrible ! ! !

What happened ?

Pure madness !..

*She went to
A firefighting
Committee
And ...*

*Claimed to the
Right to vote
...
for us*

(Snif)

To be reduced to

Climb up stairs ...

On foot !..

*You all
Savages ! ! !*

It looks less like dying ...

But more like a baby seal !

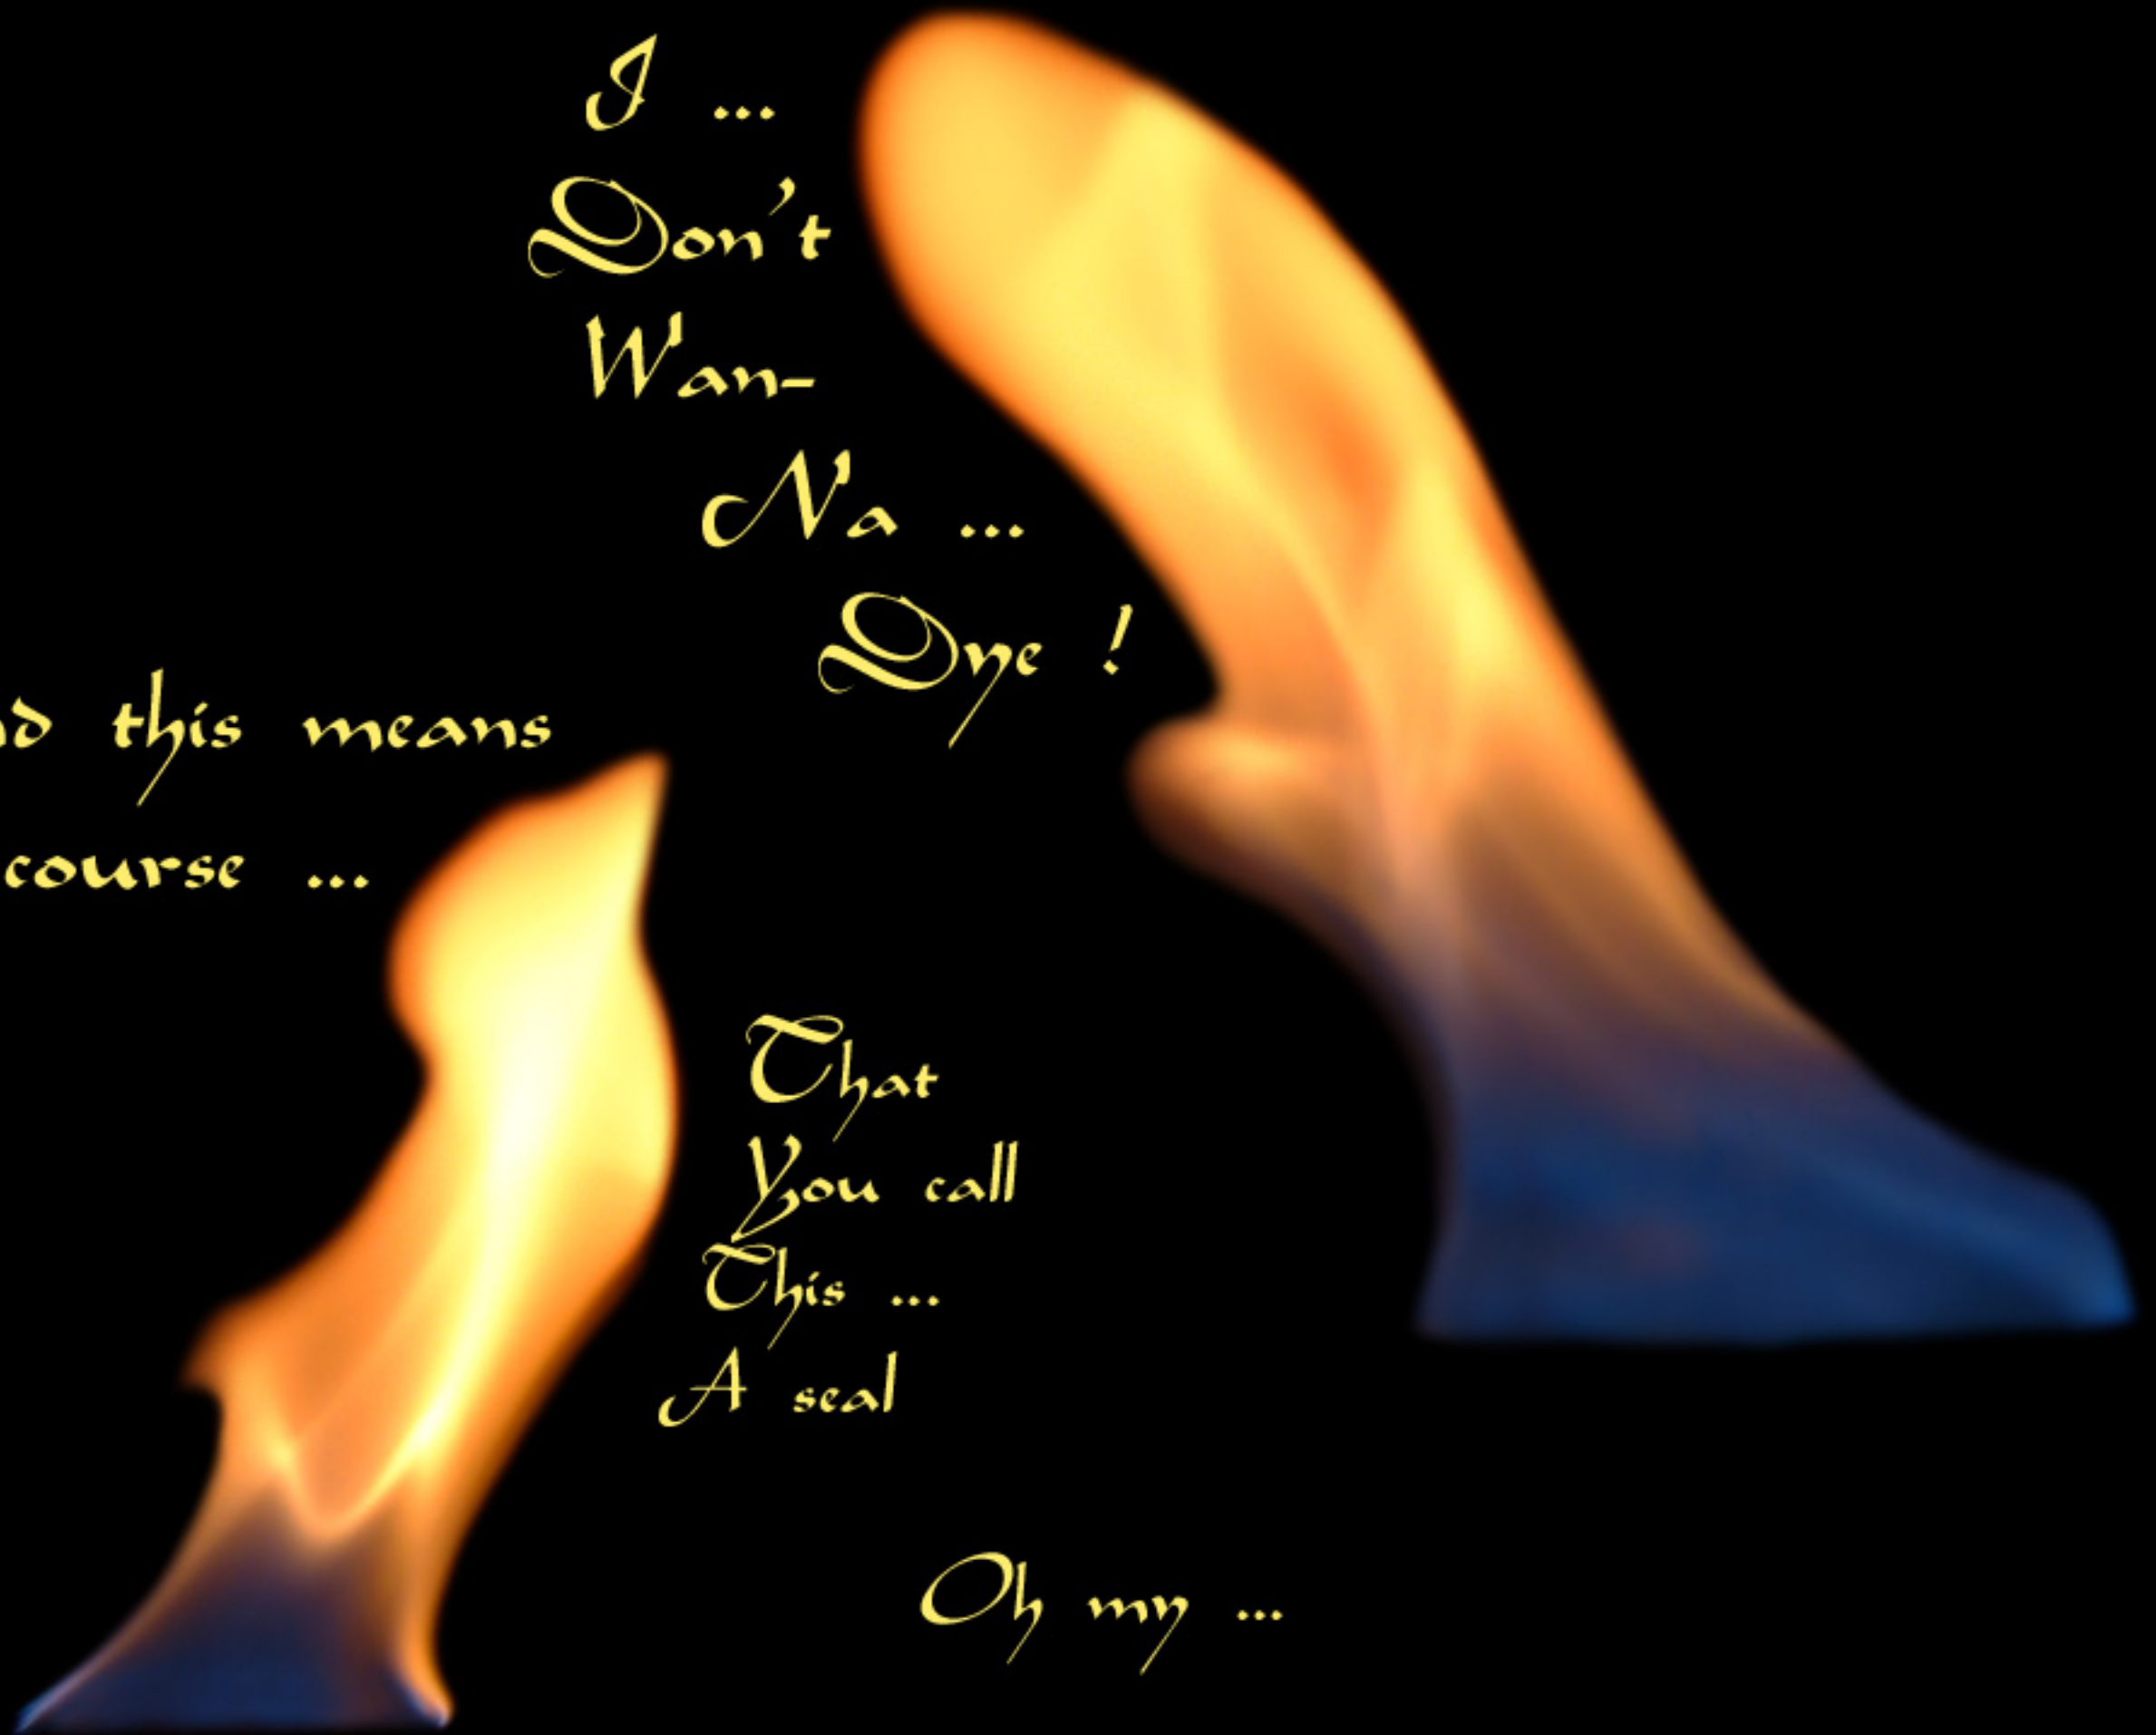

*I ...
Don't
Wan-*

*Na ...
Dye !*

*And this means
Of course ...*

*That
You call
This ...
A seal*

Oh my ...

Ahhhhhhhhhh

*Tell me about using the worst
Humans can do and I'll tell you :
We are the champions*

Get off the way ! ! !

' found the accelerator

But don't ask me about the brakes ... (' sorry for the inconvenience)

So ?..
How many fingers
Now ?..

You malicious people !..

*I think it's becoming ...
Usual . Don't you ?*

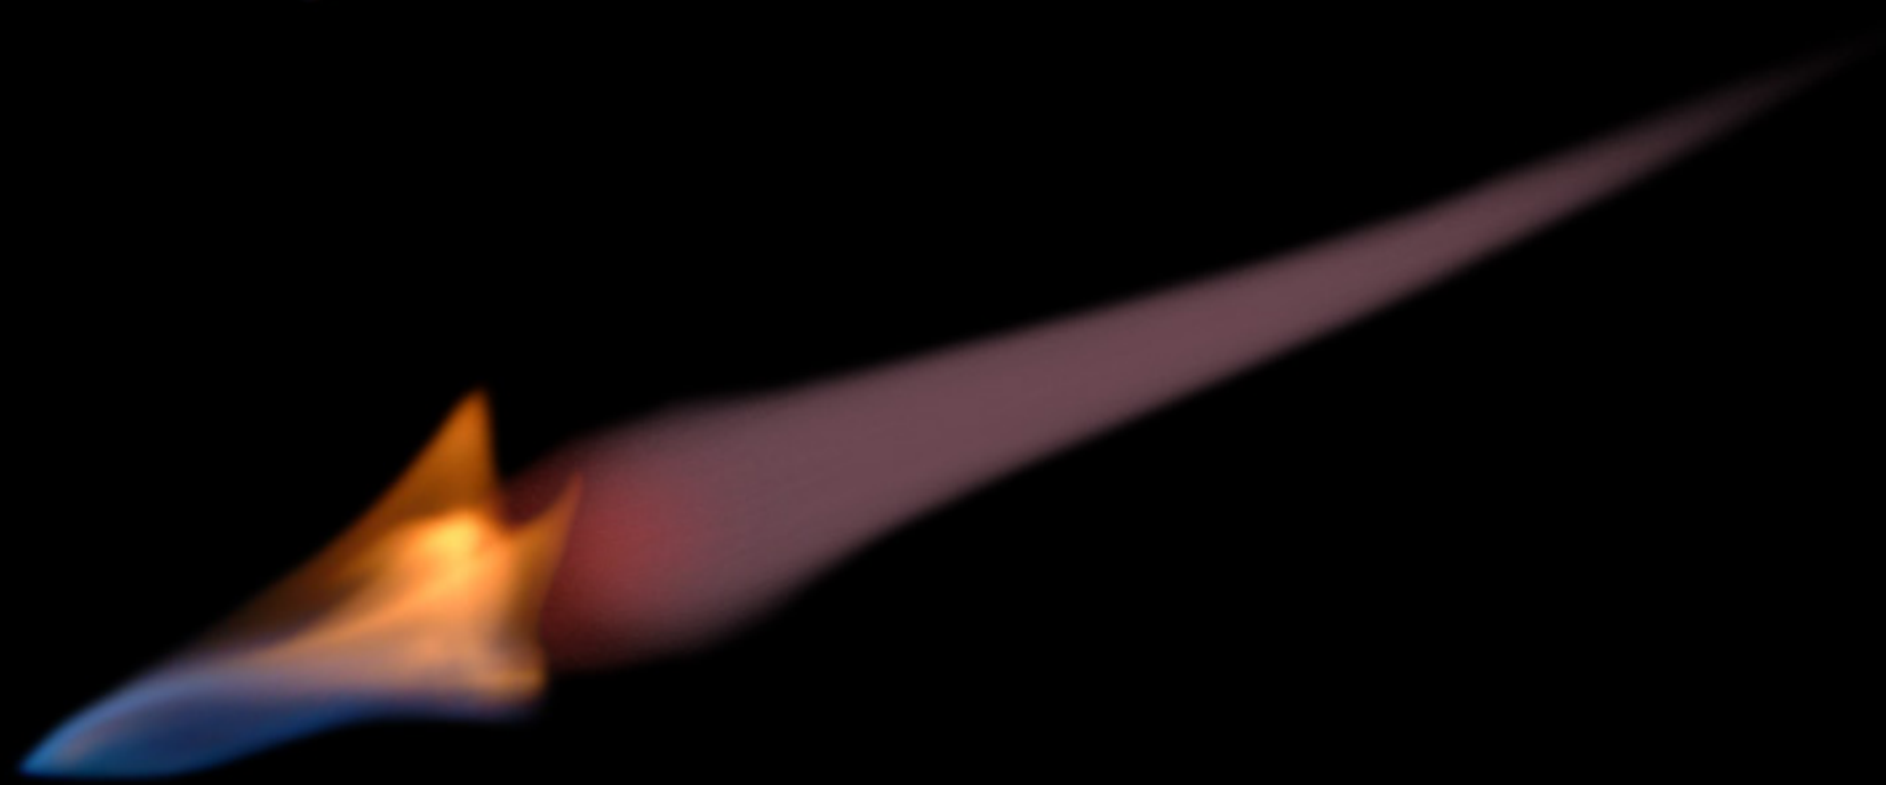

*I'm not so surprised :
Artists have
No imagination*

Indeed ...

Go on boy!

Show them you're a real man!!!

*I can't believe
How many excuses
You can find out*

*Just to
Slow us*

Down

Oaaaad...

So ordinary ...

Close to arbitrary

*'not up to
Demoralize you but ...*

*With a pointed beak ...
Like this one
And a dog's tail ...
Like that one*

What do you think it's gonna be ?..

What do you think

*Running
falling or
Turning ?*

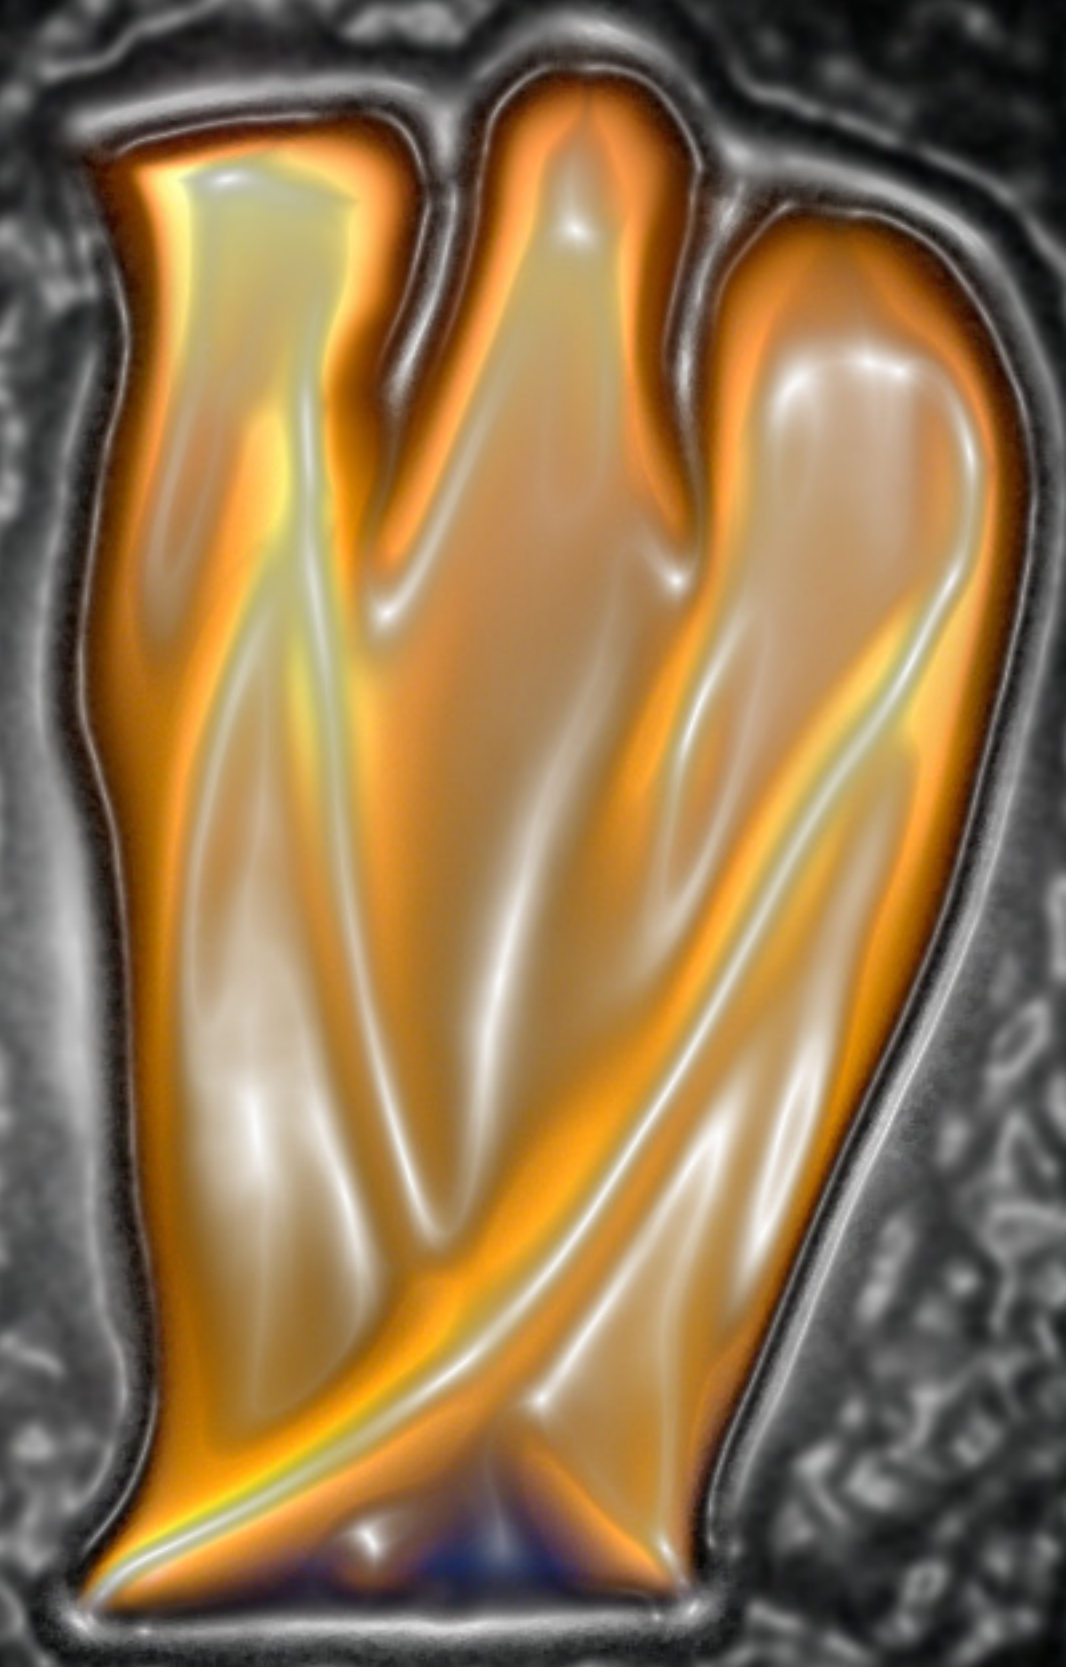

I choose ...

Making an impression !..

Despicable bastard !...
He dared ...

Doing
This ...
To us

Flame (*)
This designer
Right now !

(*) Flame = Equivalent of : make human .

Let me see if I got it right :

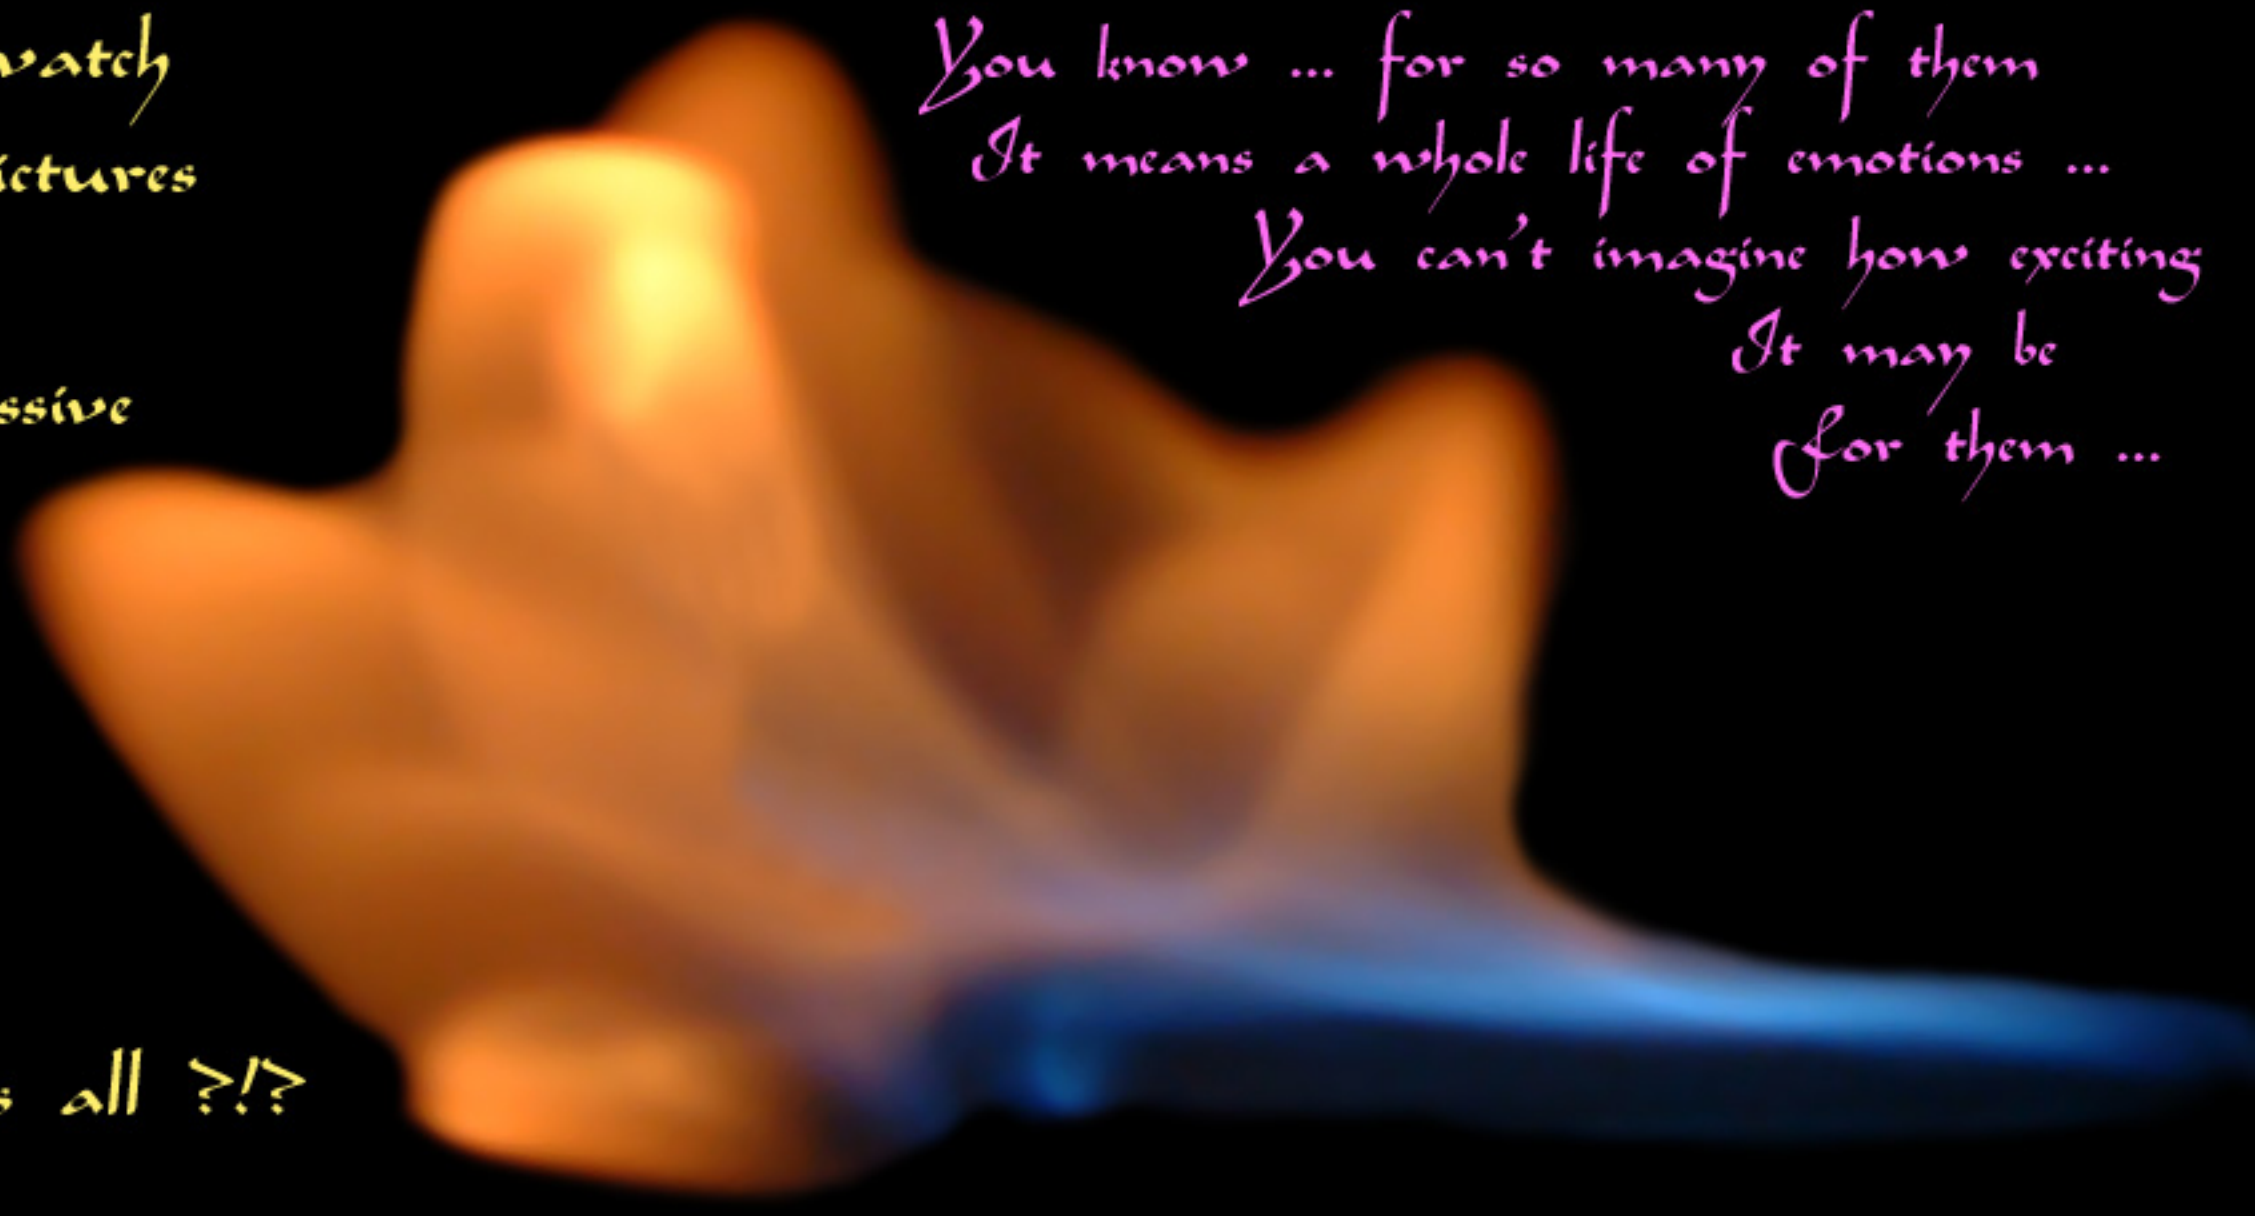

*We just make two characters , next to each other ,
Sitting in this shapeless thing ...*

*And we watch
Moving pictures*

*With aggressive
Sounds*

*And ...
And that's all ?!?*

*You know ... for so many of them
It means a whole life of emotions ...
You can't imagine how exciting
It may be
For them ...*

So you seem to be
Encouraging our boy

But ...

What ?..

Do you ?..

Who ?..

How ?..

To risk his life
Playing
Flame hard
Racing ?

Me ?

You're not
Serious

Are you ?..

Yes we are !

How surprising !

*Any tiny little problem and
Who's responsible ?..*

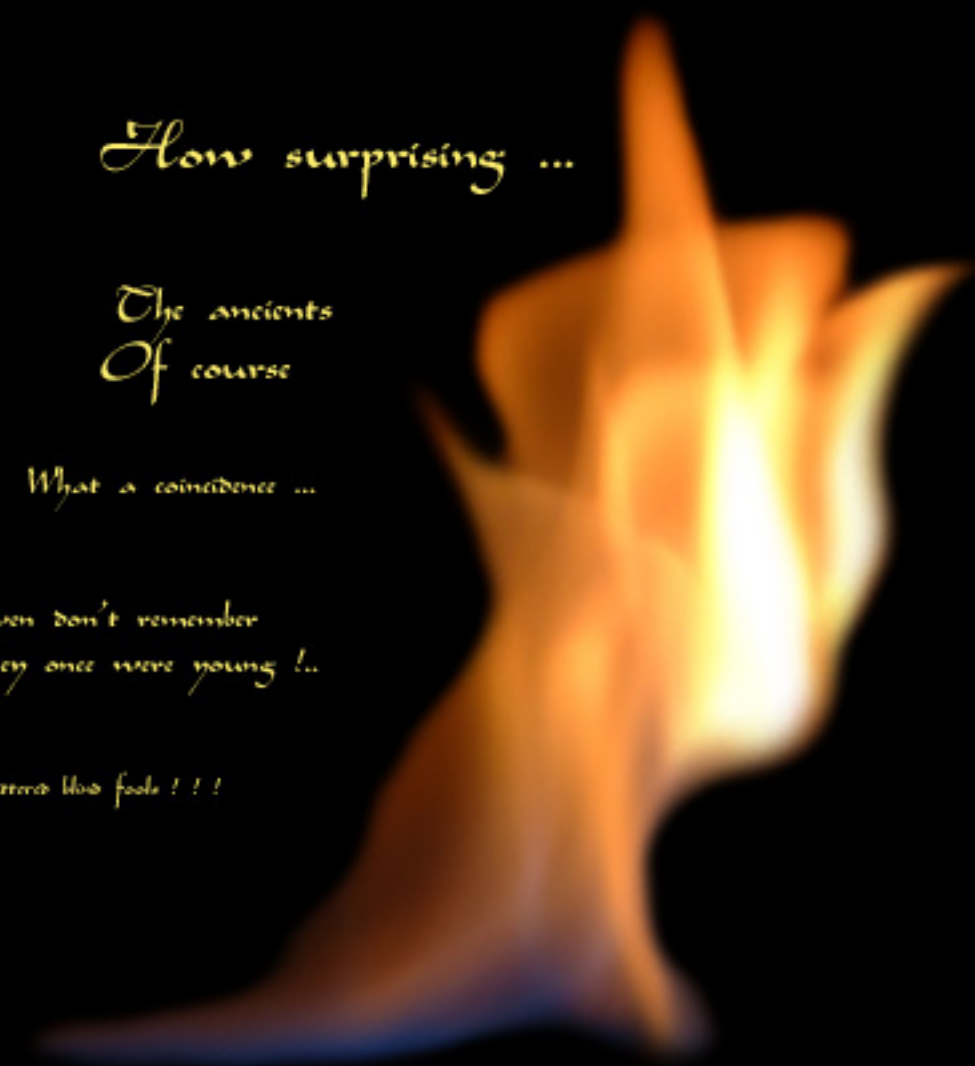

How surprising ...

*The ancients
Of course*

What a coincidence ...

*' even don't remember
They once were young !..*

Embarrassed those fools ! ! !

So ? ? ?

*So it looks
Just as credible
As any
U.f.o. picture*

I saw

Butterfly >

*Angel
Of
Light !*

*Anyway
It's ridiculous*

(Snif)

And don't you expect
To come back here untill
You manage to get
Fuel of your own

Tyrant !

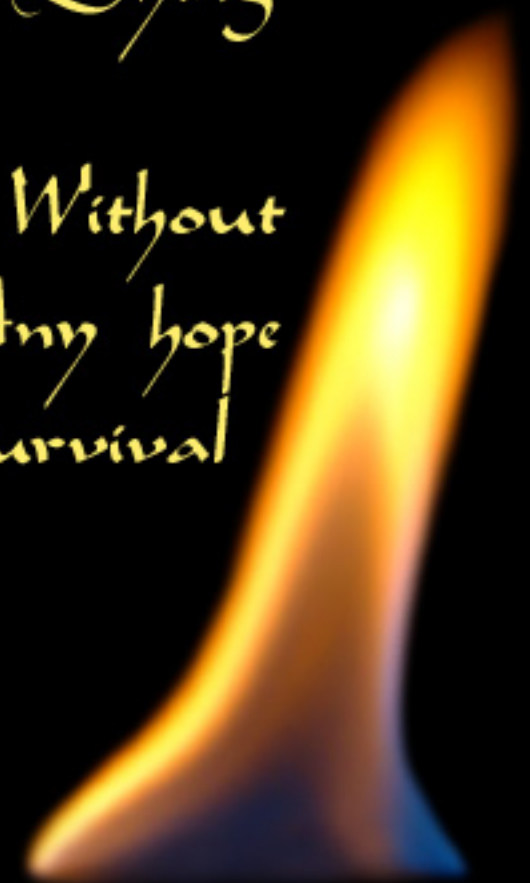

Say goodbye to
Easy life , boy

She believes that environmentalism
Is essential for the survival of
Everybody

She rather
Looks like she's
Dying

Without
Any hope
Of survival

That is right
' looks like she is ...

This may at least remind us
How important it may be to
Apply instructions but not
Without having understood them

They call this :

Armchair

OK and ...

*Does that
Catch fire*

Quickly ?..

*Not all the time
But sometimes : yes*

Particularly when

They smoke

Toosezer laits claim for then
Smokin duty fore all human

Waah !

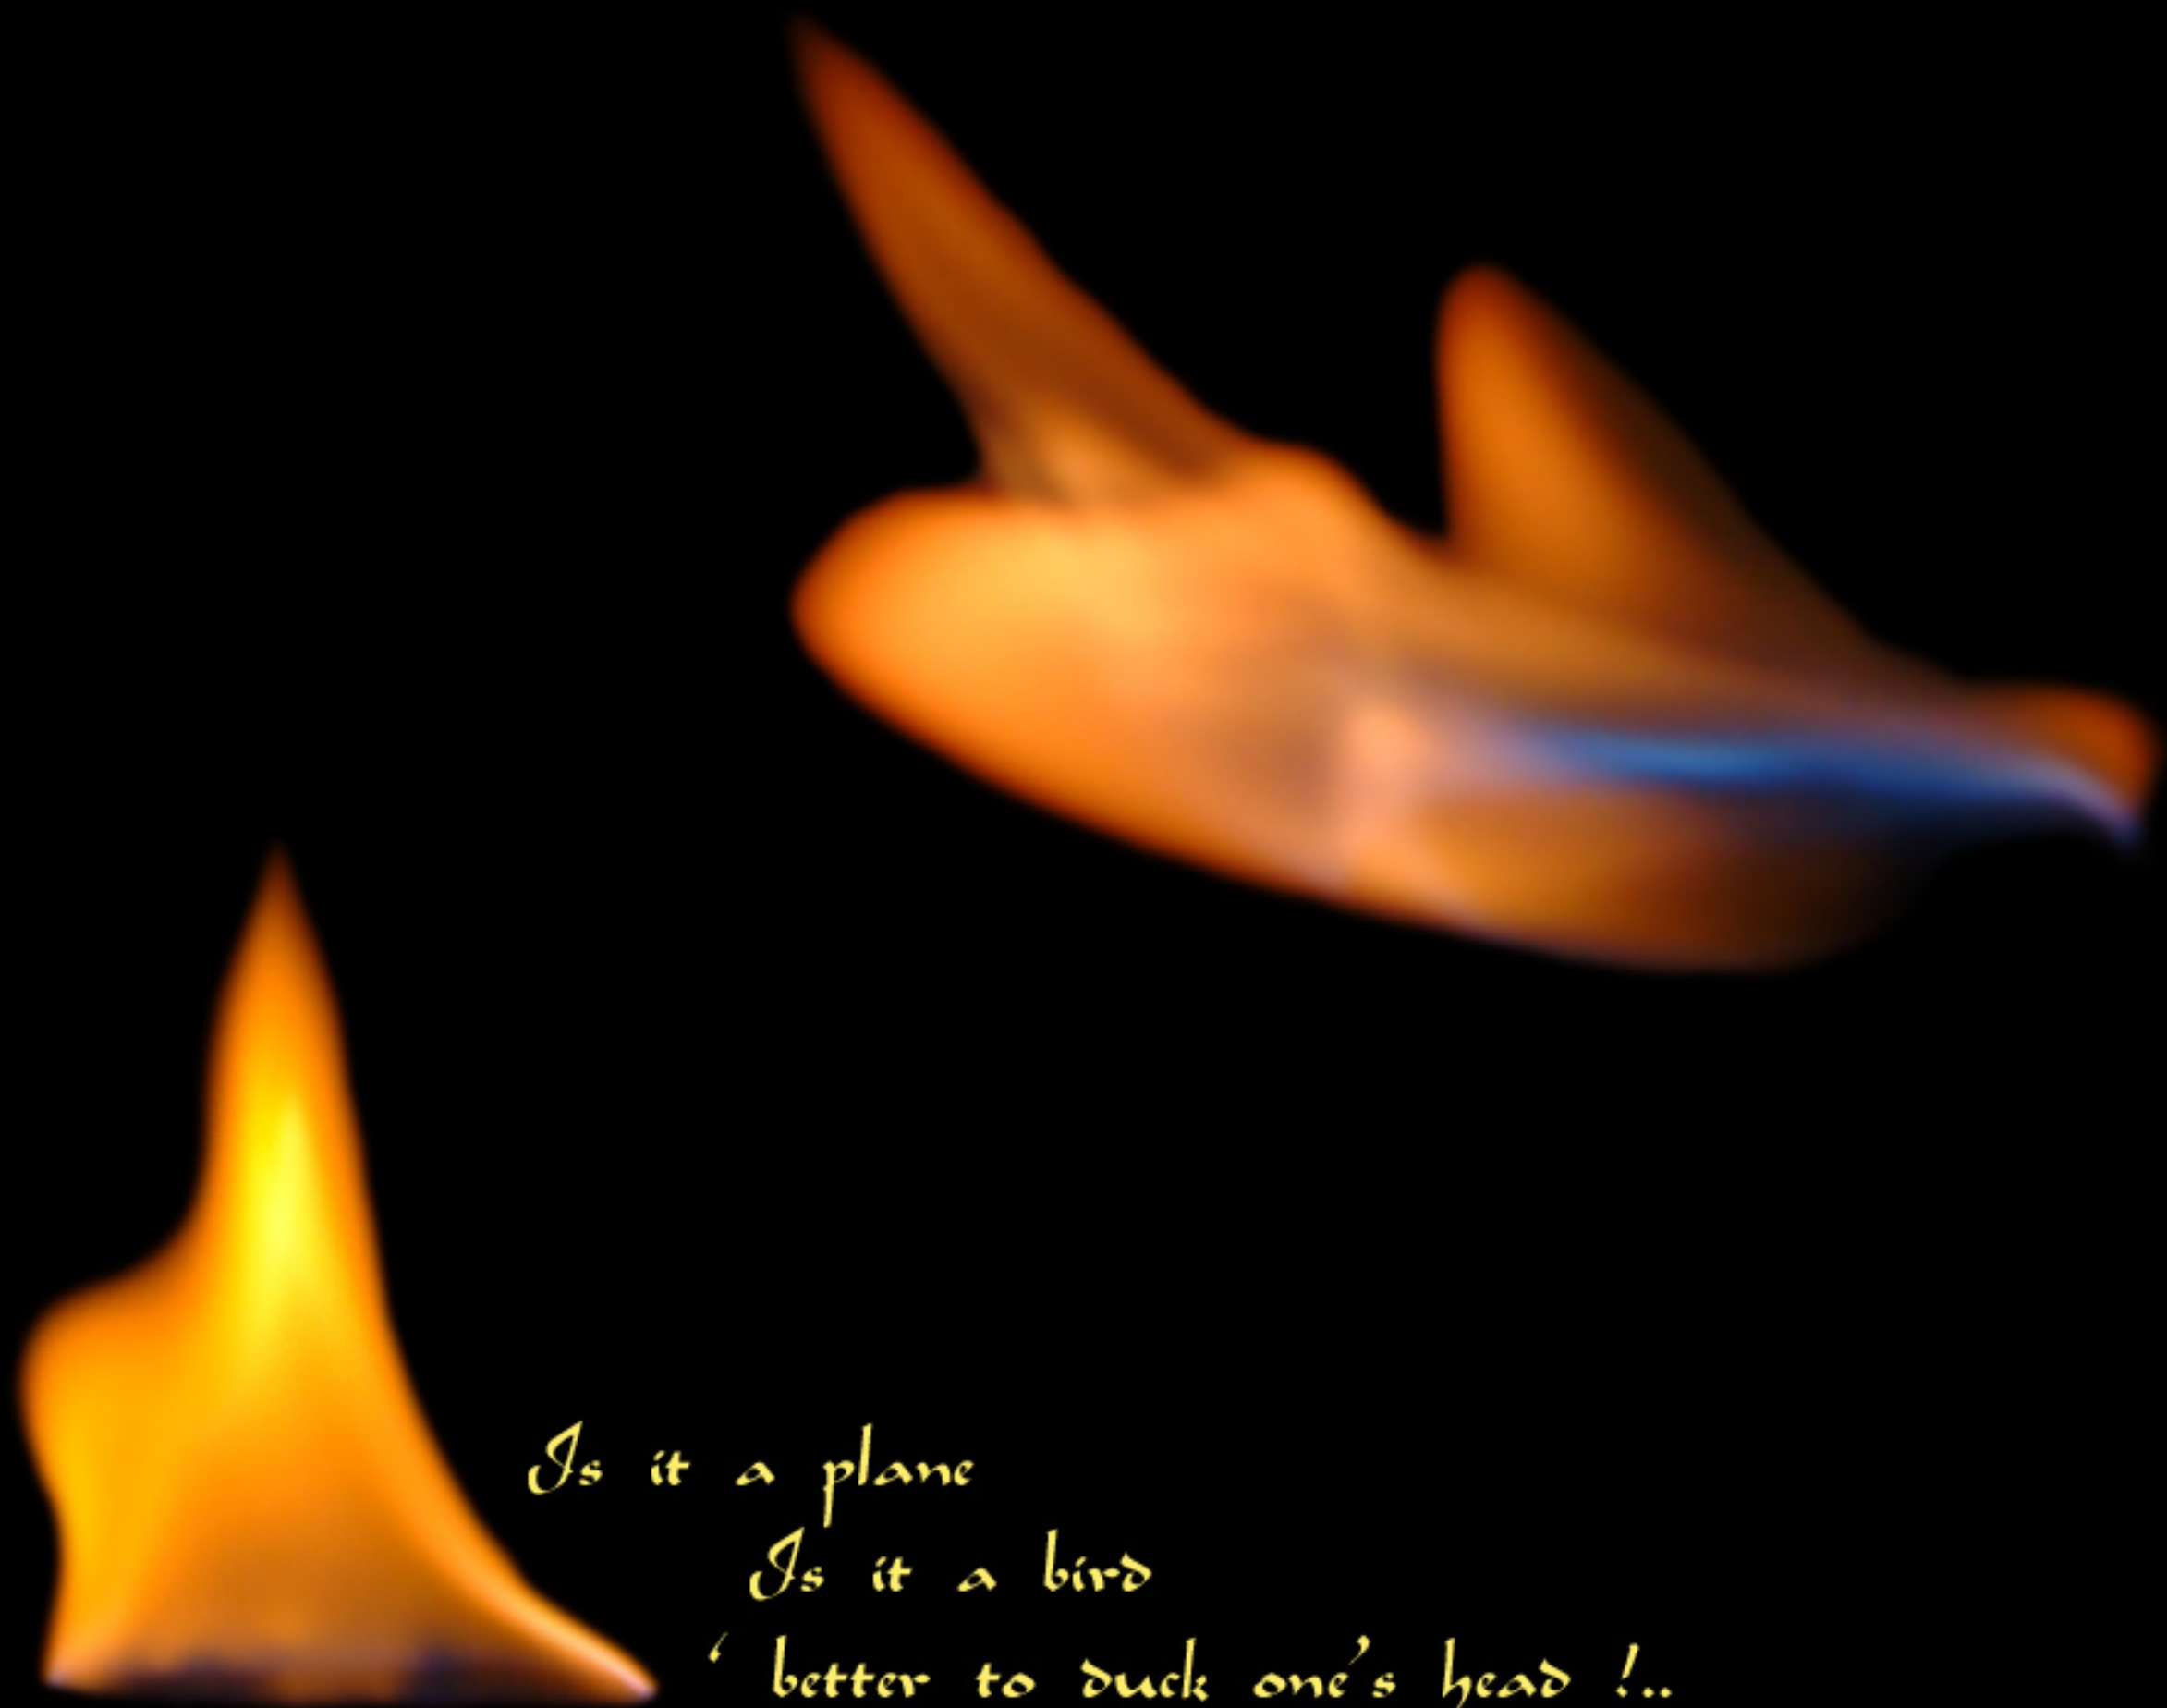

*Ter- ri-
fying !*

Like I always say ...

Seduction

Is just a question of imagination

*Is it a plane
Is it a bird
' better to duck one's head !..*

Go on Cigars
You're gonna
Annihilate them 9/1

You just need

More practice !..

It's not fair

*You always jump
Higher than me*

Look at that ...

*Seems it's
Monsters show
Time today
...*

*I tell you :
It's an
Invasion ...*

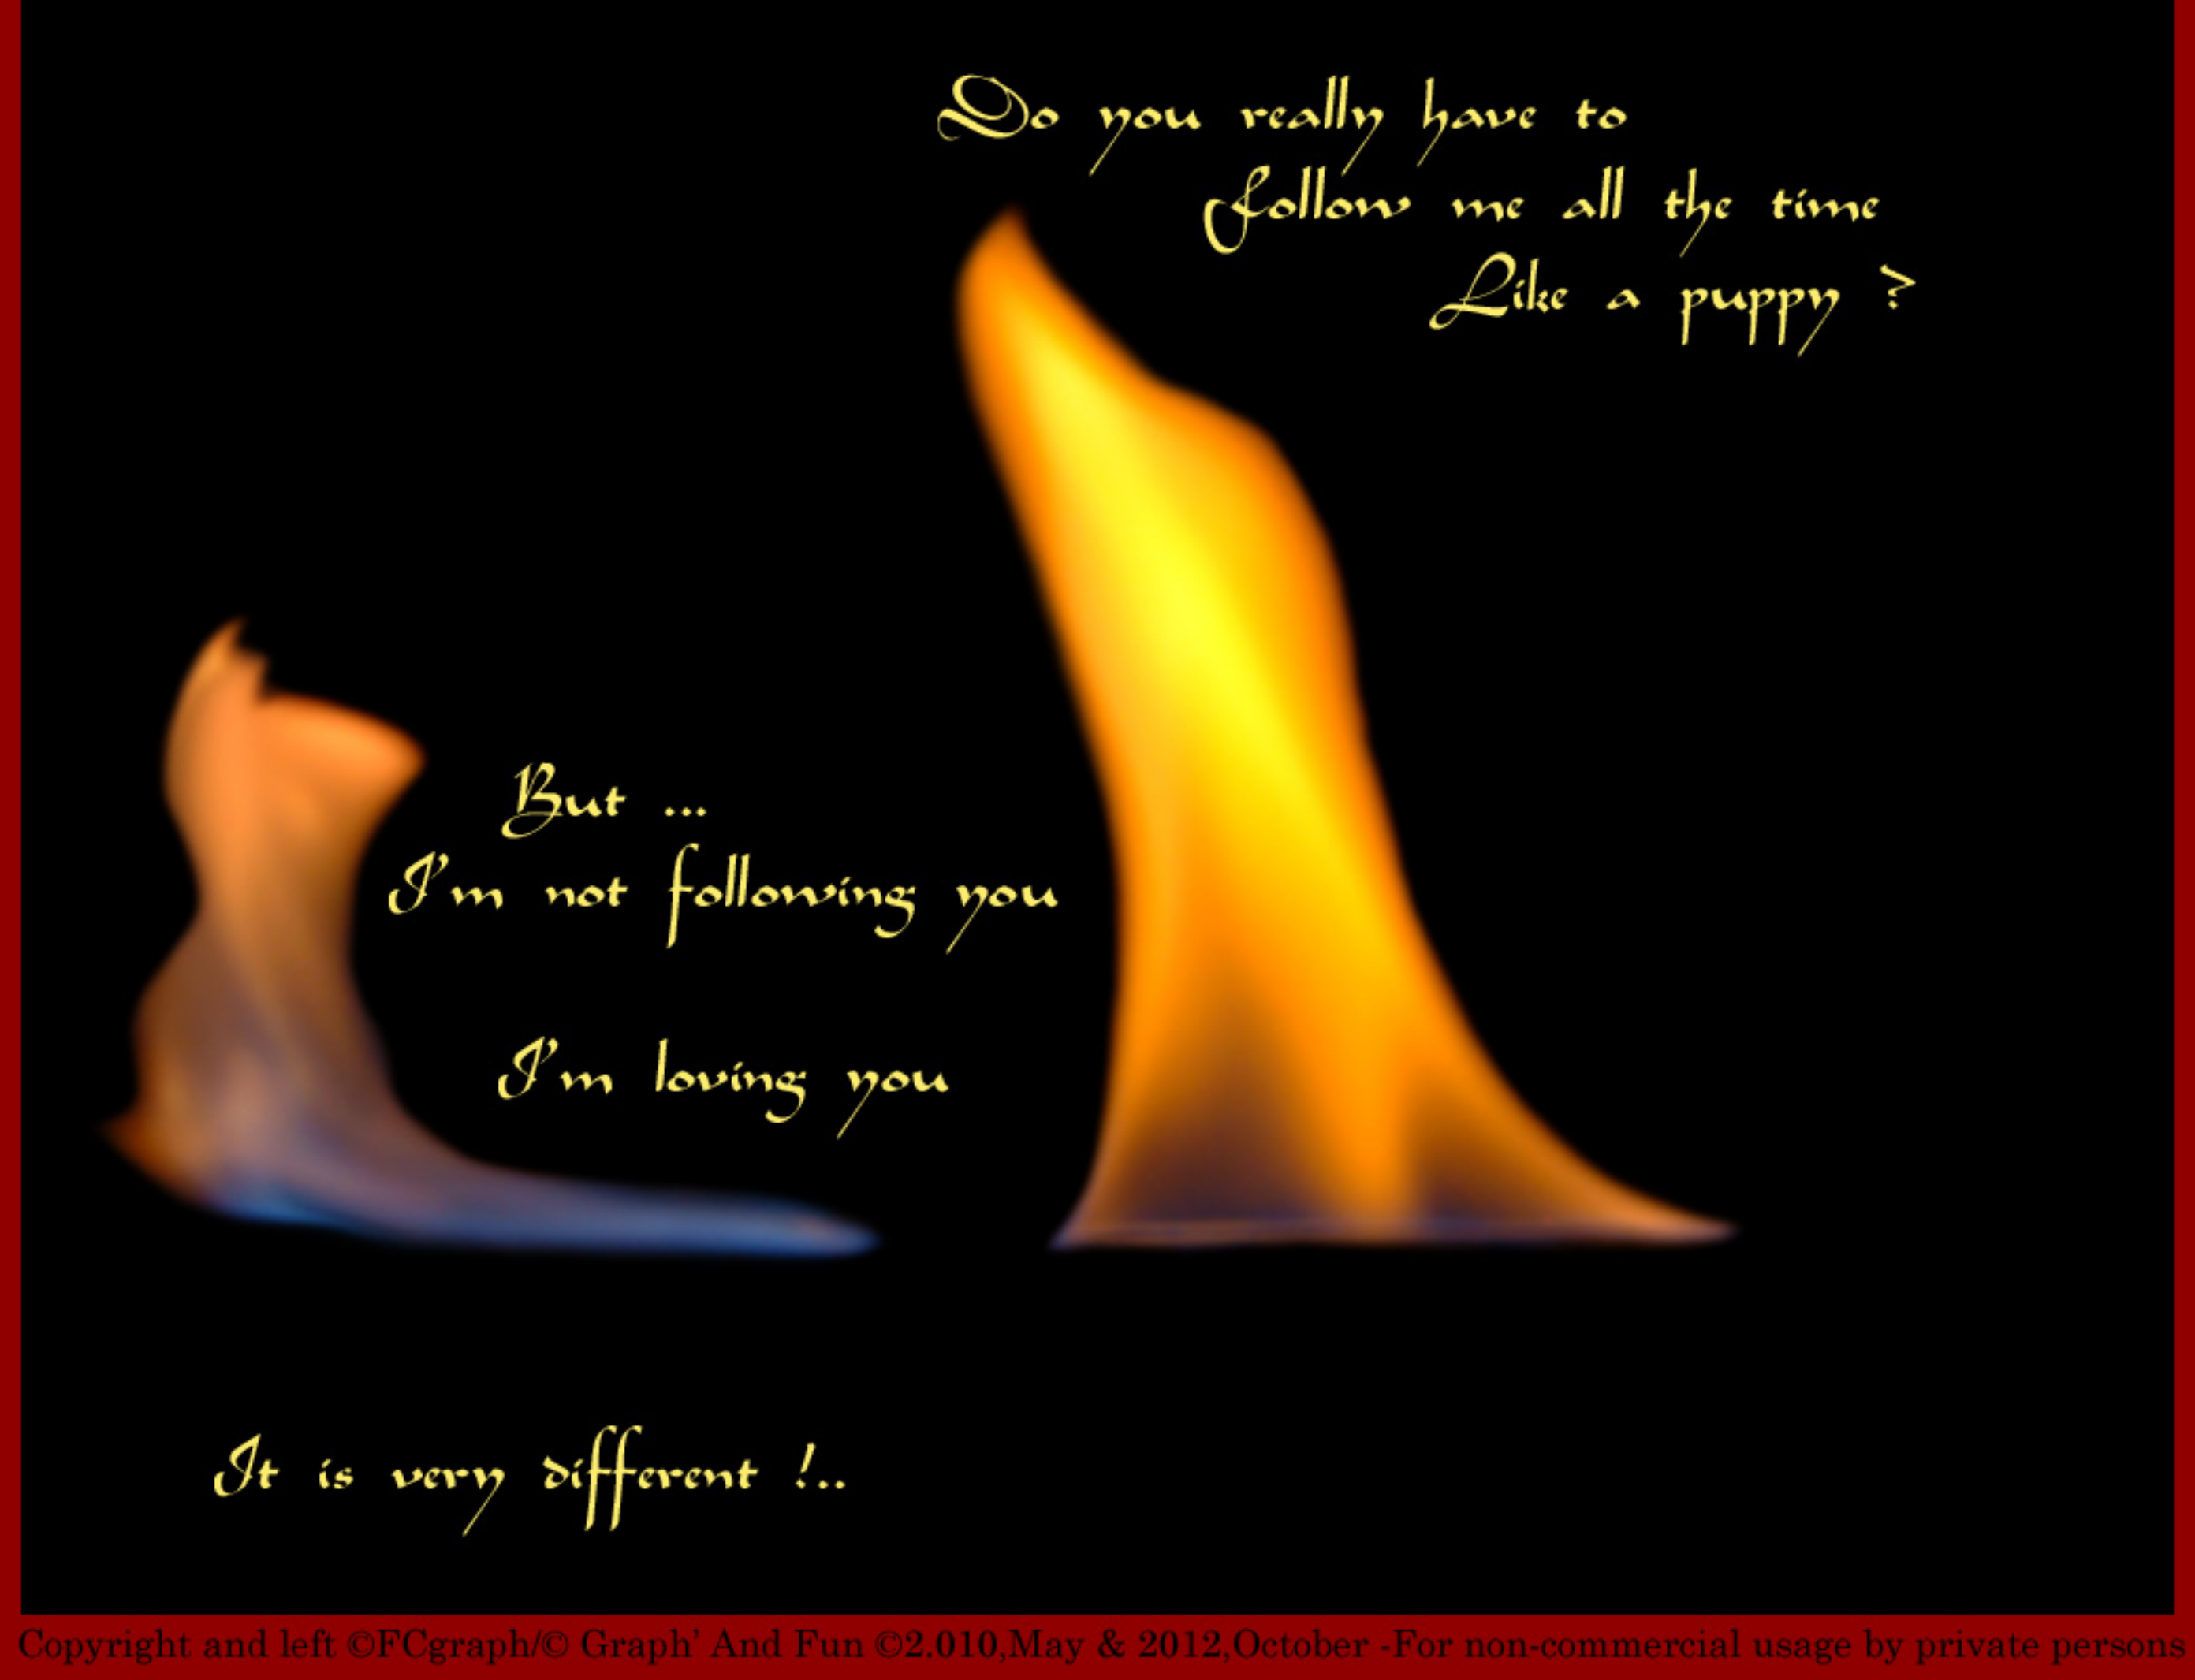

This is ...

*I must confess
I'm a little bit
Lost*

*The metaphysical
Immuendo
Is easy*

*But meanwhile its principle
Is not quite defended*

Such a doubt leaves me confused ...

Do you really have to
follow me all the time
Like a puppy ?

But ...
I'm not following you
I'm loving you

It is very different !..

Come on Dad

Come on ...

*It was just
A tiny little race
Between friends ...*

Two flames are shown against a black background. The flame on the left is smaller and more delicate, while the one on the right is larger and more intense. Both flames have a bright yellow-orange core that transitions to a blue at the base.

So this is
The reason why You
"Just" ...

Incredibly
Disappointed us

And ... disobeyed
And ... worried us
And ... shamed us
And ... saddened us
And ...

*I'm telling you :
This is actually
Melting !*

*And I repeat :
It is not ..
Possible*

This is : Solid !

*If so this means that solid
Can melt too ...*

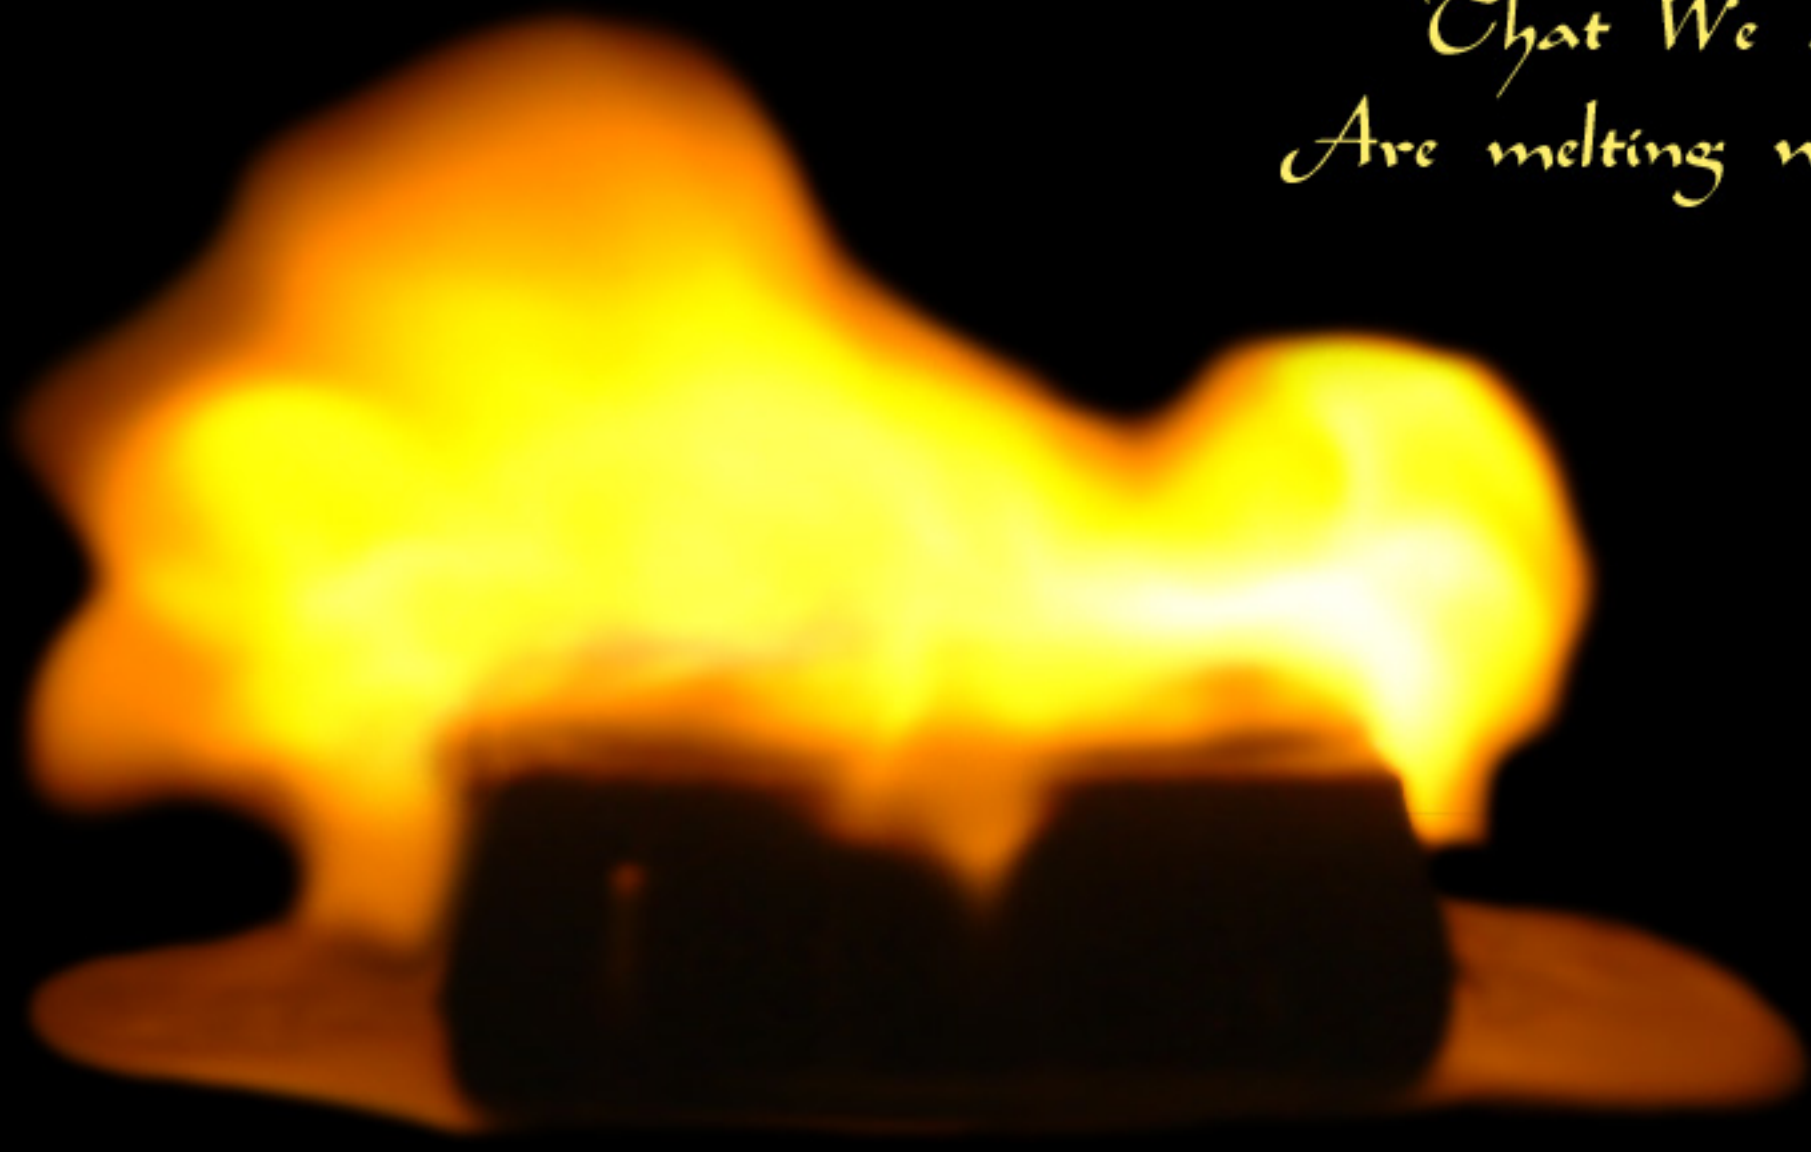

To make it short :
This is so much solid
That We ...
Are melting with it !

It is not
Possible

A flame
Can not melt

Well !.. We are obviously innovating
then ...

Anyway ...

*You are nothing but
An ordinary reflection*

*And I even wonder
Why I keep talking
To you*

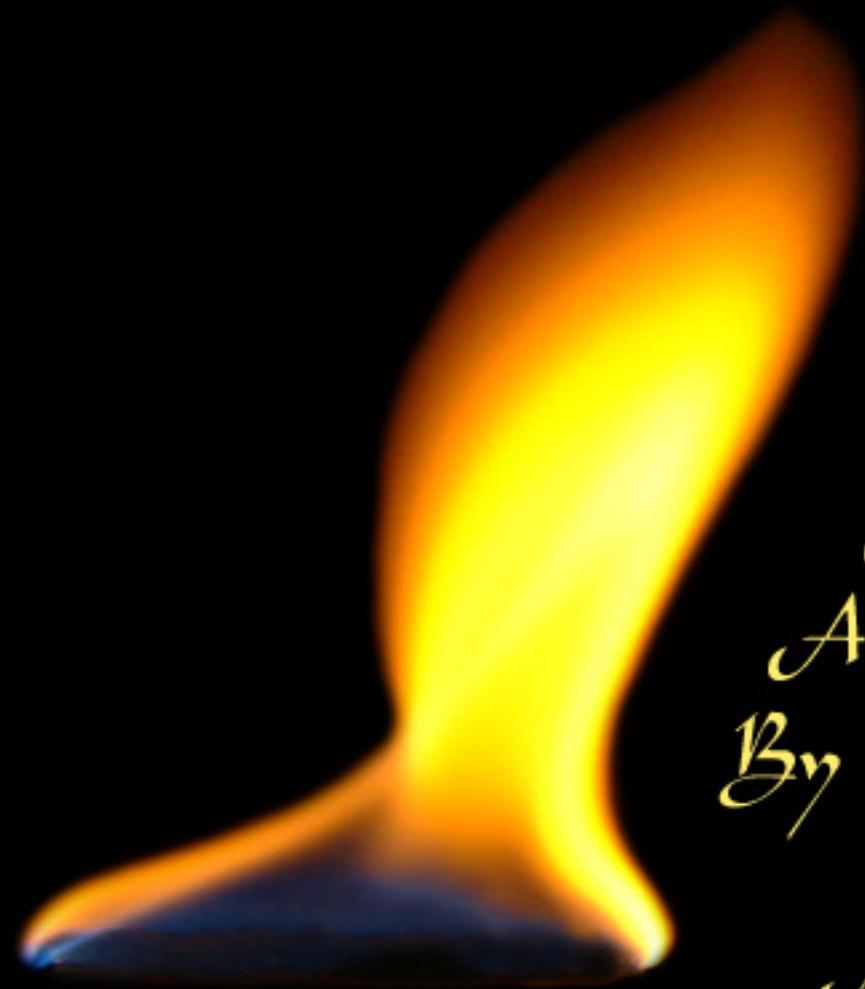

*Because nobody
Want to hear you
Anymore*

*Miss "I'm so much
More than you" ...*

*One pint of
Express Methane
If you please*

*And ...
An emergency
By here !*

Methane !..

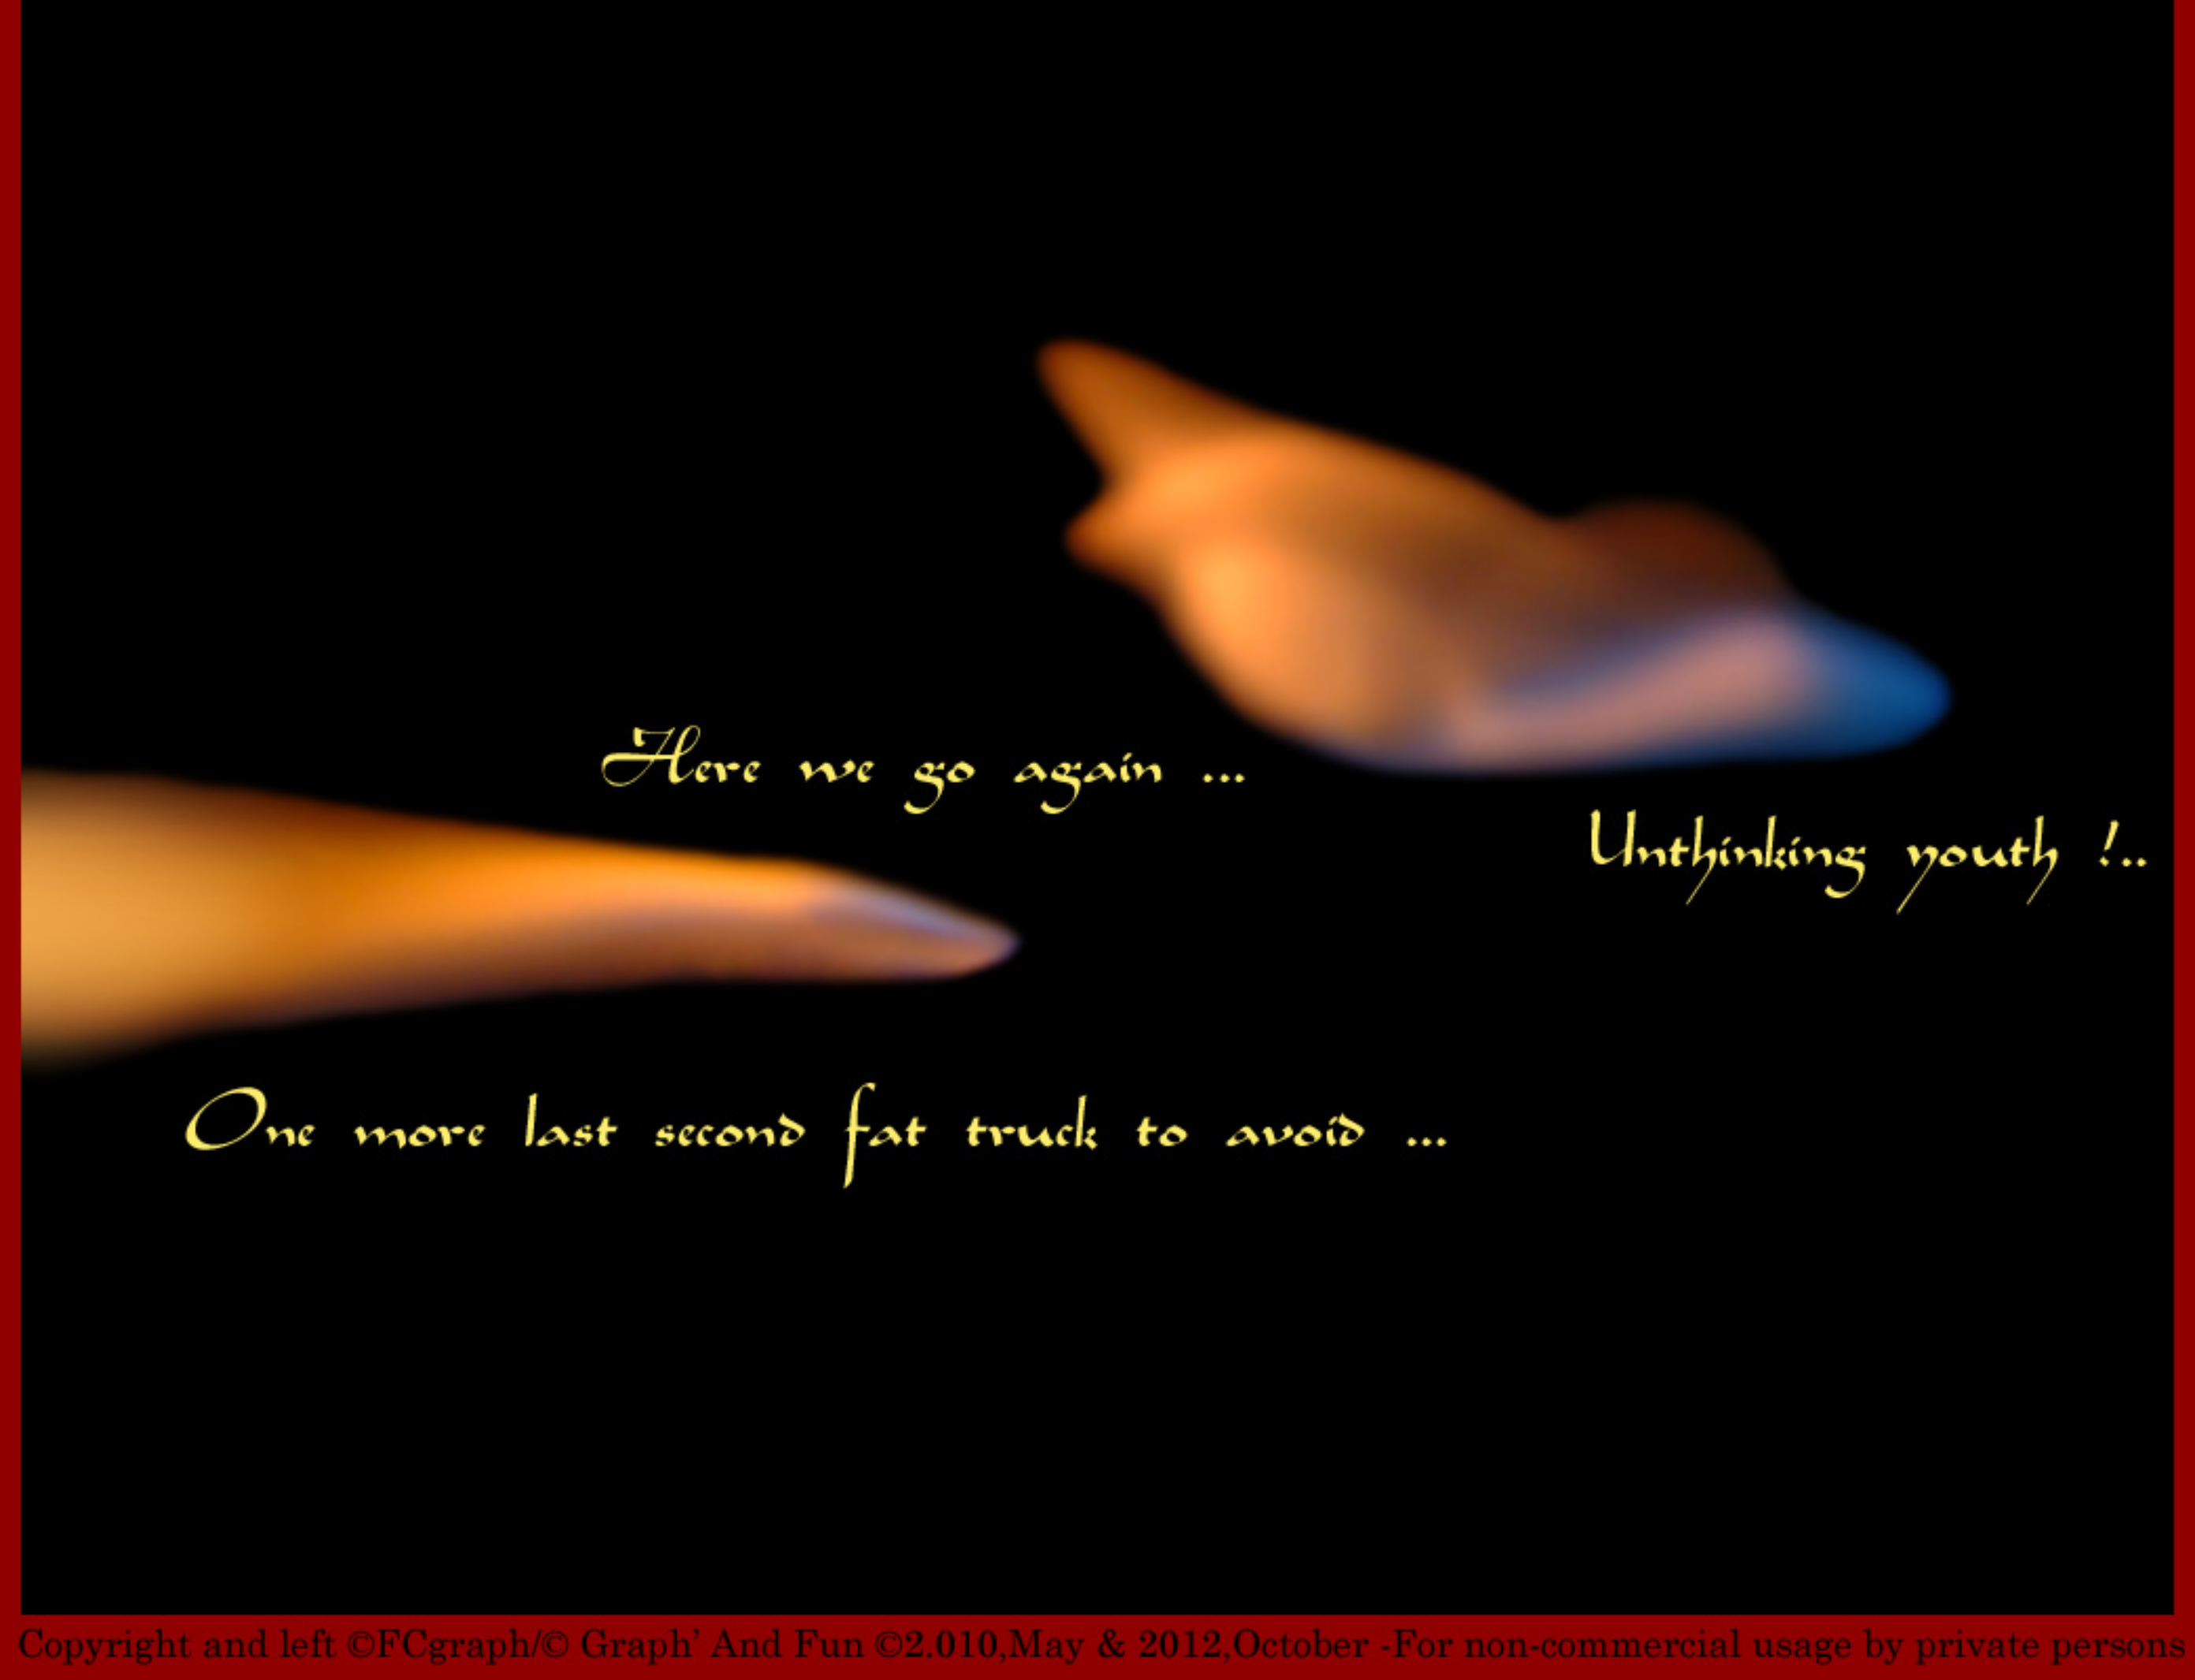

*Wake up , Darling
It's just a
Naughty*

Nightmare

Here we go again ...

Unthinking youth !..

One more last second fat truck to avoid ...

*It's so small
So cute ...*

Might eat it without

Even notice ...

*Swear to God
I marry you
Any time !*

Let me gess what comes next :

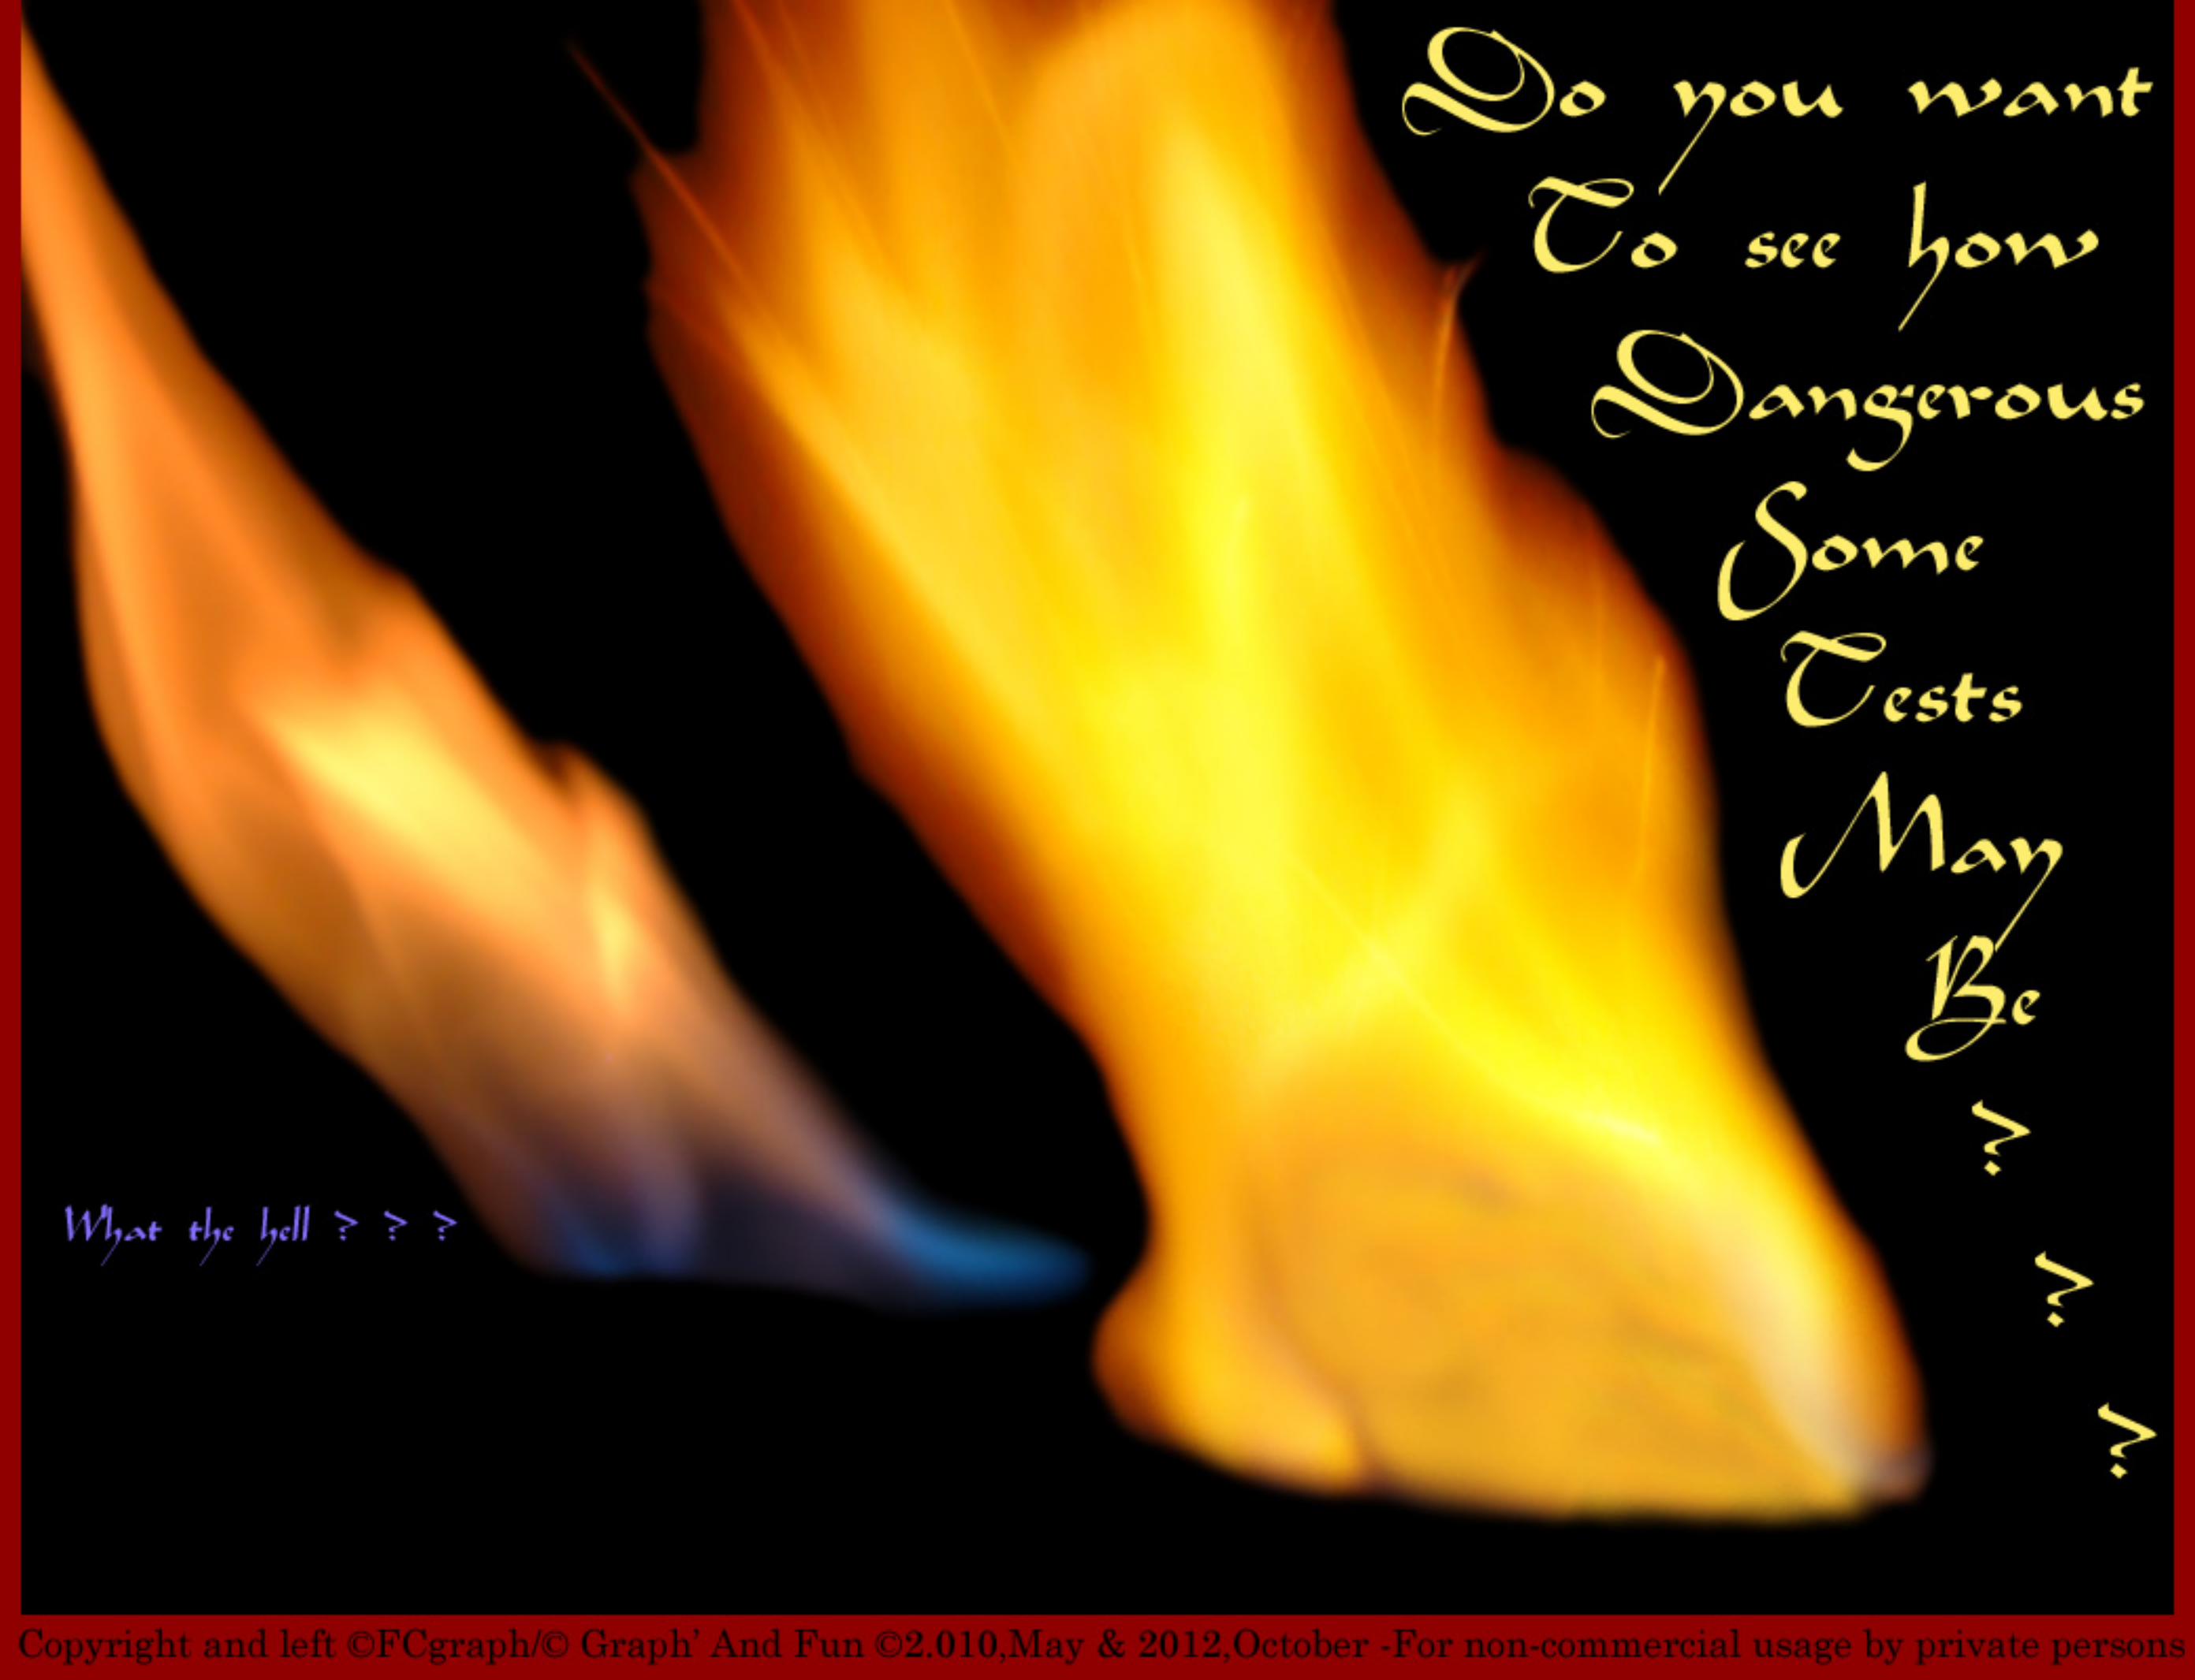

But ...

*You must first
Try the product*

Am I right ?

Bah

Not obvious to ya ?..

Do you want
To see how
Dangerous
Some
Tests
May
Be

What the hell ? ? ?

~
~
~

Nothing like

A good old

Chimney tour

From time to time

And of course
You are Not ...
Going to spend
All our money
Joining your "pals"

Right now ?

Of course not

I am

Just

going

for a walk

Just a walk ...

That's it !

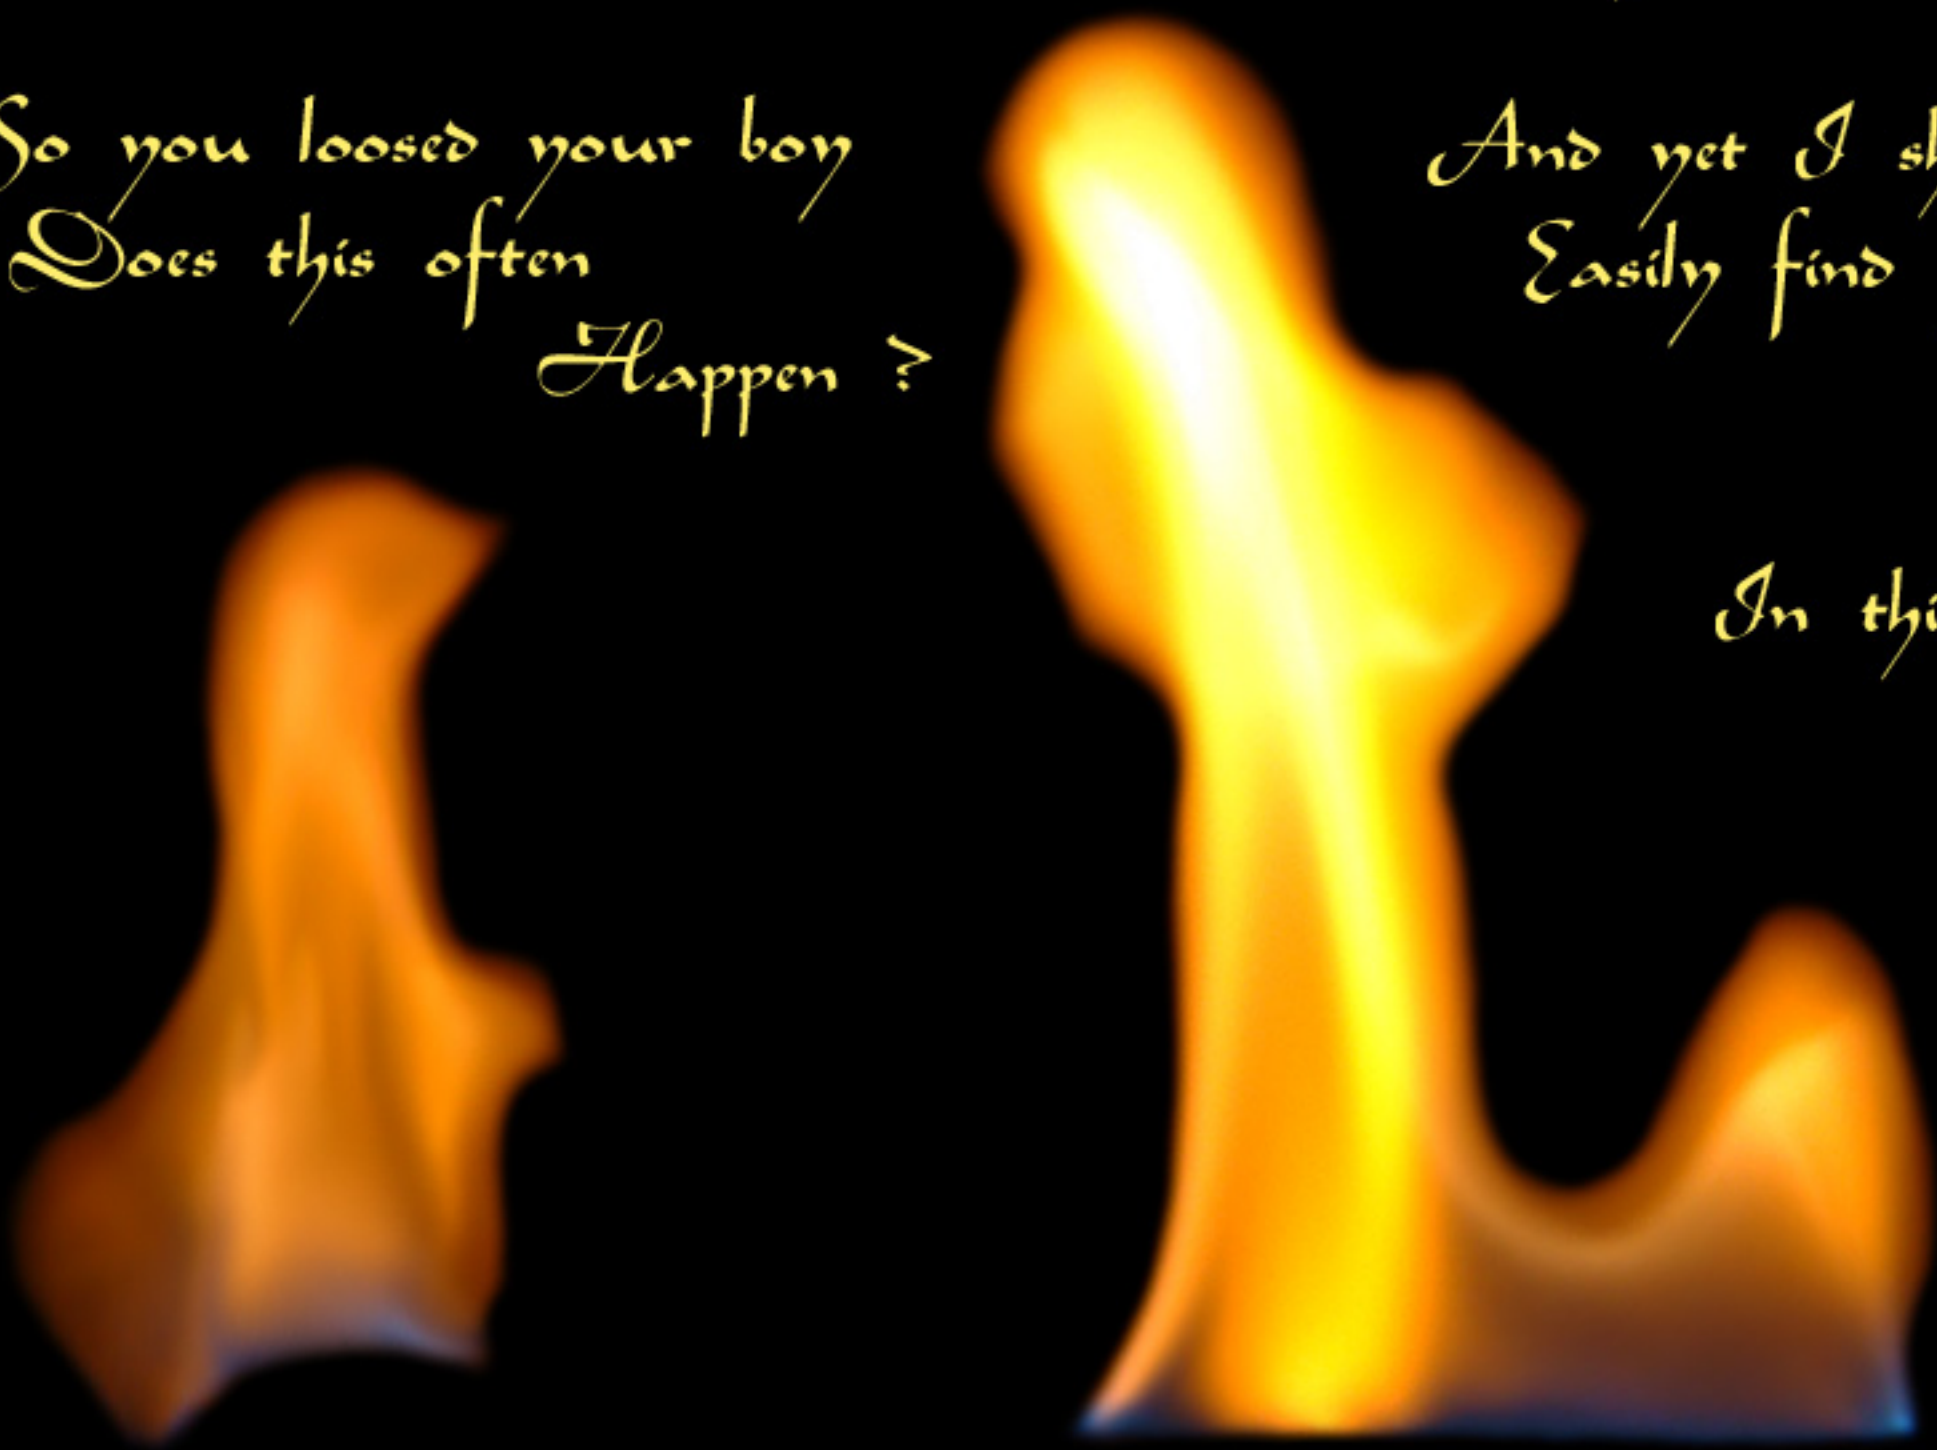

*While these stupid snails
Still enjoy
The fire ages ...*

I create :

Vertical take-off

And I ridicule them all !

Regularly !..

*So you loosed your boy
Does this often
Happen ?*

*And yet I should
Easily find him*

In this darkness ...

Believe me !

*Voting for me is
The only way to
Guarantee yourself
A wonderful
Peaceful
And Glorious
Future*

Or ...

How to destroy

A whole life

Even before it

Starts growing

This is nothing but

*Stupid and
Pre-antique
Superstition*

*The Emperor and
The Senate*

Due to their wisdom

*Are the guarantors of
All citizen's peace an serenity
During their whole life*

Even when it just began ...

*Instantaneous and
Radical fall of
The temperature ...*

Then ...

Really ?..

I said : we've
glave to stop ...
Sonna

But ... Why ?

The Artist pretends
Saying that it's
Because there is
No more ink

No more ink ?

What a joke !
I rather say :
No more ideas !

This is ...
Appalling

Furthermore

We are
The ones who
Have ideas

Well said !
Us and
Nobody
Else !

Anyway they only
Search for
Sex and
Violence
So ...

' makes no difference ...

We can kiss
Our
Freedom
Goodbye

Come back here , son
Credits are coming
Your time for glory ! ! !

Cooolate
